Looking Back Joseph L. Bruneni, 1994 **Our Own Devices** Edward Tenner, 2009-08-26 This delightful and instructive history of invention shows why National Public Radio dubbed Tenner the philosopher of everyday technology Looking at how our inventions have impacted our world in ways we never intended or imagined he shows that the things we create have a tendency to bounce back and change us The reclining chair originally designed for brief healthful relaxation has become the very symbol of obesity The helmet invented for military purposes has made possible new sports like mountain biking and rollerblading The typewriter created to make business run more smoothly has resulted in wide spread vision problems which in turn have made people more reliant on another invention eyeglasses As he sheds light on the many ways inventions surprise and renew us Tenner considers where technology will take us in the future and what we can expect from the devices that we no longer seem able to live without **Playbills to Photoplays** New England Vintage Film Society Inc., 2010-12-01 They were pioneers in the most glamorous business in the world and you only know half of their story Playbills To Photoplays reveals colorful episodes in the lives of the stars before they became stars Everyone saw them but few knew where they came from This collection of essays follows some of the most famous names in show business from Vaudeville and Broadway to Hollywood revealing a part of their lives that movie historians have neglected until now I think this book is terrific It s a must read for any fan of the silver screen and the days when movie stars were real stars Morgan Loew great grandson of Adolph Zukor founder Paramount Pictures and Marcus Loew founder Loews Theaters and MGM Ms Loew s choice of performers to write about is amazingly diverse and fascinating from character actors like Conrad Veidt to major stars like Katharine Hepburn She has written a most compelling book about their transitions from stage to film many of the stories new to me Wonderful Joan Benny daughter of comedian Jack Benny one of America s greatest entertainment icons of the 20th century whose career included vaudeville radio movies and television A nice compilation of essays on film stars who made the transition from the stage to early talkies with essays on Al Jolson Mae West Eddie Cantor Harpo Marx Spencer Tracy Clark Gable Charley Grapewin Ed Wynn and the Morgans Frank and Ralph Some essays were much better than others I loved the one on the Morgans Burns and Allen Harpo Marx and Katharine Hepburn I would highly recommend the book as it gives you a good idea what vaudeville and the Broadway stage was like in the early 20 s and what it was about these stars that allowed them to make the transition Librarything com big stars as well as a raft of character actors and decorated with dozens of striking photos perceptive close ups that make for vibrant film criticism engaging profiles of Old Hollywood icons Kirkus Performers attempting to breakthrough will find this book inspirational An Aspiring Actor Motion pictures with recorded sound known as talking pictures or talkies signaled the end of silent films and created some of the greatest entertainment icons of the twentieth century Playbills To Photoplays Stage Performers Who Pioneered the Talkies introduces a new generation to the real life struggles and careers of talented hard working early twentieth century vaudeville and stage

The Science of Reading Adrian Johns,2023-04-05 For the first time the story of how and why we have plumbed the mysteries of reading and why it matters today Reading is perhaps the essential practice of modern civilization For centuries it has been seen as key to both personal fulfillment and social progress and millions today depend on it to participate fully in our society Yet at its heart reading is a surprisingly elusive practice This book tells for the first time the story of how American scientists and others have sought to understand reading and by understanding it to improve how people do it Starting around 1900 researchers convinced of the urgent need to comprehend a practice central to industrial democracy began to devise instruments and experiments to investigate what happened to people when they read They traced how a good reader s eyes moved across a page of printed characters and they asked how their mind apprehended meanings as they did so In schools across the country millions of Americans learned to read through the application of this science of reading At the same time workers fanned out across the land to extend the science of reading into the social realm mapping the very geography of information for the first time Their pioneering efforts revealed that the nation s most pressing problems were

rooted in drastic informational inequities between North and South city and country and white and Black and they suggested ways to tackle those problems Today much of how we experience our information society reflects the influence of these enterprises This book explains both how the science of reading shaped our age and why with so called reading wars still plaguing schools across the nation it remains bitterly contested **Popular Mechanics** ,2000-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle *Kingdom* ,1904 **Scientific American** ,1903 **Mixed Media in Contemporary American Literature** Joelle Mann,2021-06-28 Mixed Media in Contemporary American Literature Voices Gone Viral investigates the formation and formulation of the contemporary novel through a historical analysis of voice studies and media studies After situating research through voices of nineteenth and twentieth century American literature this book examines the expressions of a multi media vocality examining the interactions among cultural polemics aesthetic forms and changing media in the twenty first century The novel studies shown here trace the ways in which the viral aesthetics of the contemporary novel move language out of context recontextualizing human testimony by galvanizing mixed media forms that shape contemporary literature in our age of networks Through readings of American authors such as Claudia Rankine David Foster Wallace Jennifer Egan Junot Diaz Michael Chabon Joseph O Neill Michael Cunningham and Colum McCann the book considers how voice acts as a site where identities combine conform and are questioned relationally By listening to and tracing the spoken and unspoken voices of the novel the author identifies a politics of listening and speaking in our mediated informational society
