Looking After Children With Difficult:

Caring for Children with Complex Needs in the Community Jean Teare, 2009-01-22 Caring for the Child with Complex Needs in Community Settings provides a valuable overview of the key factors relating to caring for children with complex and continuing care needs. Despite its frequent and increasing use, complex care needs is a term without an agreed definition. This shortfall of knowledge is addressed in this book through critical discussion of evidence based research and current health, social and education policy. It brings together the latest knowledge into one text providing practitioners with the crucial information needed when working with this diverse and broad group of children. Caring for the Child with Complex Needs in Community Settings explores caring for technology dependent children who require respiratory assistance, caring for children who require home enteral tube feeds and caring for children with complex disabilities. It looks at multi agency care, respite care for families, social service support and educational support of children with complex needs. Practitioners from health, social services and education backgrounds have contributed to the chapters using case studies, while a parent of a child with complex needs has provided a personal view of caring. This accessible and practical text provides core knowledge and vital insight required for successful delivery of community care for children with complex and continuing care needs. **A Practical Guide to Caring for Children and Teenagers with Attachment Difficulties** Chris Taylor, 2010 It explains what attachment is, what the different patterns look like in children and young people, how early attachment experiences affect their lives and how this understanding can help childcare workers to develop therapeutic ways of caring. An essential book for professionals such as residential carers, social workers and foster carers. *Children with Complex and Continuing Health Needs* Jaqui Hewitt-Taylor, 2007-11-15 Focusing on the real life experiences of children and their families, this book provides valuable insight into living with complex and continuing health needs. The author highlights the importance of seeing each child as an individual with the same rights and needs as any other person rather than defining them by their health condition. **How to Help Children and Young People with Complex Behavioural Difficulties** Ted Cole, Barbara Knowles, Joan Pritchard, 2010-09-01 The authors examine the underlying causes of BESD and discuss research based theory. They offer a range of interventions and therapies for use in and out of school and encourage practitioners to develop skills such as engaging with parents, identifying special educational needs and setting constructive boundaries. **Looking After Children** Raymond A. Lemay, Hayat Ghazal, 2007 Looking After Children is an assessment and planning approach for children and youth in out of home care, first developed in the UK and since 1997 adapted and used increasingly in Canada, particularly in Ontario. The approach is developmental and strengths based. The Assessment and Action Record (AAR), the core clinical tool, provides the basis for an in depth assessment interview which then leads to a comprehensive care plan. The AAR is computerized and provides the possibility of data aggregation and the recent revision allows for comparability among Canadian children as assessed by the National Longitudinal Survey of Children and Youth.
