by the fictional modes of detective fiction film noir and neo noir Dark portrayals of the city are analyzed in Raymond Chandler s crime fiction through to key films like Double Indemnity 1944 and The End of Violence 1997 By employing these fictional elements as the basis for historicising the city s unrivalled urban form the analysis demonstrates an innovative approach to urban historiography Revealing some of the earliest tendencies of postmodern expression in Hollywood cinema this book will be of great relevance to students and researchers working in the fields of film literature cultural and urban studies It will also be of interest to scholars researching histories of Los Angeles and the American noir imagination
