Steven Heighton, 2011-05-24 The longer you stare at the mountain the more it seems a refuge above human borders and distinctions and this constant dialogue of violence Up there he'd hoped he and Sophie could step away from trouble for a while Lewis Book a doctor with a history of embroiling himself in conflicts and his daughter Sophie travel to Nepal to join a climbing expedition One evening as Sophie sits on the border between China and Nepal she spots a group of Tibetan refugees fleeing from Chinese soldiers When shooting starts Dr Book rushes toward the ensuing melee ignoring the objections of Lawson the expedition leader who doesn't want to get involved and spoil his chance to be the first climber to

summit Kyatruck Lawson is further enraged when Amaris a Chinese Canadian filmmaker recording the expedition joins Book with her camcorder in hand When the surviving Tibetans are captured just short of the border Lawson and Sophie look on helplessly as Book and Amaris are taken away with them down the glacier into China From that point Lawson continues his ascent and the fugitives are caught in an explosive and thrilling pursuit that will test their convictions courage and endurance From one of Canada's finest writers comes a literary page turner of the highest order Inspired by an actual event Every Lost Country is a gripping novel about heroism human failings and what love requires When is it acceptable to be a bystander and when do life and loyalty demand more

Yesterday is a Lost Country Malene Breytenbach, 2012-11 They were pioneers who went to the colonies and later became regarded as settlers on disputed land Uhuru wars of liberation decolonisation and terror drove many of them away Maureen Sneddon Barnard was one of these people She was driven from Kenya by the Mau Mau In Rhodesia she farmed again and experienced loss all over again After Rhodesia had become Zimbabwe she received the dreaded eviction notice that forced farmers all over the country off their land In a small brown school case she took with her diaries and newspaper clippings that told the story of her life This at least she could leave to her children telling of the courage the risks the endurance the joys and sorrows She knew and loved Africa in all its grandeur but the winds of change were to blow her and her people's footsteps away

The Lost Country, Episode One: "The Big Empty" Wayne Kyle Spitzer, 2020-12-17 First came the time storm which erased half the population Then came the dinosaur apocalypse Welcome to the world of the Flashback a world in which man's cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you're lucky and if you're not in the wrong place at the wrong time which is everywhere and all the time But what you'll never do is remain the same for this is a world whose very purpose is to challenge you for better or for worse In short it is a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes Jesus Just Jesus said Amelia staring at the decomposing body How long do you think it's been here I examined it where it was sprawled on the back porch facing the ocean its skin blackened and clinging to the bones like it had been vacuum sealed its wispy hair fluttering Hard to say Few weeks Maybe a month I batted away the flies Long enough for the organs to liquify How how do you know I studied the holes in its head a smaller one which was about the size of a dime and a larger more cavernous one the exit wound Because otherwise there'd be brains all over I stepped over it and picked up the gun checked its chamber There's still bullets in it She stared at me tentatively as I closed the chamber and gripped the weapon in both hands neither of us saying anything At last I nodded to the back door the screen of which banged back and forth in the wind and tried to brace myself You ready She shook her head Let's go I said And then she was holding the screen as I inched forward and gripped the knob turning it slowly carefully easing the door open Stepping into a room which was dark as pitch which reeked of cat piss and despair

The Lost Country, Episode Two: "The Dreaming City" Wayne Kyle Spitzer, 2021-01-11 First came the time storm which erased half the population Then came the Dinosaur Apocalypse How did it all begin Well that depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn't take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn't take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the Lost Country From The Dreaming City It was at once garish and sublime hipster and gauche a burnt orange relic of a bygone era with a tip of the hat to Frank Lloyd Wright and a debt to Google architecture a thing as righteous as it was ridiculous which sat amongst its desert like an outsider an intruder as out of place as the transplanted palms and piped in water as artificial as L A itself They weren't kidding when they called it the Lost Aztec Temple of Mars I said as Rusty fidgeted and nickered and shook flies from his ears But what's with all the high fencing and concertina wire only to leave the entire front perimeter open There's just a hedgerow No fence at all Nigel sat up in his saddle and looked on the sweat beading along his forehead Be damned if I know it wasn't like that before He looked around the area skittishly I thought Maybe he had it removed when they took out the road He was like that you know All about the visual He pointed at the house itself Wouldn't have been a problem though even if it were there there's a man door in the fence just beyond that breezeway I held out my arm as everyone started to move I hold up I ah I don't like this I scanned the overgrown yard and the cosmetically placed boulders some of which were the size of moving vans looking for traps looking for threats It doesn't feel right Lazaro got off his horse and approached the hedgerow then turned to face us splaying his arms What You heard Jamaica dude was all about the visual Probably figured there was no need once the road was taken out For a front fence I mean He let his arms slap to his sides Now are we going to go check it out or what Or are you all just going to sit there all day And there was a growling noise a deep throated snarl which sounded from behind one of the rocks even as a shadow fell across the knee high grass at which a great cat padded out which was easily the size of a pickup and hissed at us its huge pallet showing pink and pale its black lips stretching its whiskers and curved fangs which were like tusks gleaming in the sun Lazaro don't But it was too late he'd already drawn his pistol and squeezed off a few rounds which went pop pop pop in the late afternoon sun and echoed along the hills which reverberated across the valley like the sound of a car backfiring

Apocalypse How did it all begin Well that depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn t take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn t take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the Lost Country From The Primeval World I stood abruptly and raised the back of my hand but was restrained by Linda who had inserted herself between us That s enough Please Chris Enough She s not going to tell us She backed me away from the girl But I have an idea if you want to hear it I yanked away from her and began pacing furious at the stranger but really angry with myself for losing my cool in front of my crush whom I d liked since the moment we d met at the Coke machine in the Community Room about a month before the Flashback And for sending them Penny and Fred to the food mart in the first place ostensibly to save time but really just so I could be with Linda I I m sorry Jesus It s just that She came to me and put a finger to my lips Shhh Forget it All right I tried to look away but she forced me to look at her All right Listen We know which direction they went So why don t we just take Valerie here and go looking for them She turned to face the young woman She ll point us in the right direction won t you Little Miss Sunshine She glared at her menacingly If she ever wants to see home again And she was right of course I knew it and the girl knew it And so I reconfigured her bonds so she could travel and we doused ourselves in rex urine including Valerie for who knew how far we d have to go or how long we d be exposed to potential predators and we headed out walking up South Union Avenue toward the capitol even as Compies watched from the undergrowth and I thought I saw a face simian yet strangely human animal and yet somehow not peeking at us briefly from between two fronds Staring at us passively almost meditatively like a great ape behind glass or a manatee through green hazy water

Wayne Kyle Spitzer, 2021-03-16 First came the time storm which erased half the population Then came the Dinosaur Apocalypse How did it all begin Well that depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn t take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn t take long for the great Time

displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the Lost Country From The Devil s Triangle There were six of them as I said all of whom rushed us the instant our feet touched the ground All of whom snarled and charged us like wolverines as we raised our weapons and fired the flare gun cracking and hissing blanching the scarlet haze for the sun had painted everything red and gold its projectile punching through one of the raptors chests and lighting it up so that its ribs were backlit briefly and I could see if only for an instant its burning beating heart Yet still they came another one leaping at me even as I dropped the gun which clattered against the planks as I dropped it and grabbed the thing by its neck then brought the knife down with my other hand and stabbed it between the eyes Run I shouted even as Amanda shot another her second and then bolted toward the shore drawing the others so that I was able to snatch up the flare gun and quickly reload it so that I was able to pursue them and to shoot one in the back while Amanda turned and took out the last of them shooting it in the head so that the back of its skull exploded like a spaghetti dinner thrown against the wall so that it collapsed writhing about 10 feet in front of her whereupon she quickly approached it and shot it again just to be sure And then she looked at me as the dead and dying animals lay all around us and I looked back our chests heaving our faces covered in sweat our worn clothes bloody and disheveled and I knew that she knew which was that today we were the predators the thing needing to be feared the killers And that neither of us needed to worry not about food or other predators or mysterious lights in the sky or anything Because we were the masters of our fate we and no one else not even God And we were the master of the world s fate too At which she ran to me and we collided and I held her fast there on the long jetty in the Atlantic Ocean in the Bermuda Triangle there beneath a day moon and the blood red sky in an instant in which it was good so very good not to be afraid not to be alone And as to what may or may not have happened in those breaths those pulse points between that moment and the next the next day the next search the next milestone as to that I offer only a quote from Gandhi Speak only if it improves upon the silence
