Lost Tribes And Promised Lands The Origins Of American Racism:

Lost Tribes and Promised Lands Ronald Sanders, 1992 An utterly revelatory work Unprecedented in scope detail and ambition *Savage Anxieties* Robert A. Williams, 2024-03-26 This review of Western history's disdain for savage tribes across three millennia is a provocative contribution to multicultural studies Publishers Weekly From one of the world's leading experts on Native American law and indigenous peoples human rights comes an original and striking intellectual history of the tribe and Western civilization that sheds new light on how we understand ourselves and our contemporary society Throughout the centuries conquest war and unspeakable acts of violence and dispossession have been justified by citing civilization's opposition to these differences represented by the tribe Robert Williams award winning author legal scholar and member of the Lumbee Indian Tribe proposes a wide ranging reexamination of the history of the Western world told from the perspective of civilization's war on tribalism as a way of life Williams shows us how what we thought we knew about the rise of Western civilization over the tribe is in dire need of reappraisal A tidy academic survey of the savage from the ancient centaurs to today's indigenous tribal peoples A straightforward scholarly study that concludes with a compelling look at the pervasive harm in stereotypical attitudes and language Kirkus Reviews **The Making of New World Slavery** Robin Blackburn, 2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West **The Cambridge History of Jewish American Literature** Hana Wirth-Nesher, 2015-12-09 This History offers an unparalleled examination of all aspects of Jewish American literature Jewish writing has played a central role in the formation of the national literature of the United States from the Hebraic sources of the Puritan imagination to narratives of immigration and acculturation This body of writing has also enriched global Jewish literature in its engagement with Jewish history and Jewish multilingual culture Written by a host of leading scholars The Cambridge History of Jewish American Literature offers an array of approaches that contribute to current debates about ethnic writing minority discourse transnational literature gender studies and multilingualism This History takes a fresh look at celebrated authors introduces new voices locates Jewish American literature on the map of American ethnicity as well as the spaces of exile and diaspora and stretches the boundaries of American literature beyond the Americas and the West *Henry Hudson and the*

Algonquins of New York Evan T. Pritchard, 2019-11-26 The year was 1609 and British explorer Henry Hudson had landed in North America at the bidding of the Dutch East India Company But Hudson was not the first man to set foot on Manhattan Island Henry Hudson and the Algonquins of New York chronicles this historic discovery with a hereto unknown perspective that of the people who met Hudson's boat on their shore Using all available sources including oral history passed down to today's Algonquins Evan Pritchard tells a colonization story through several lenses from Hudson himself as well as his bodyguard scribe and personal Judas Robert Juet to the Eastern Algonquin people who saw his boat as a floating waterfowl and his arrival as the fulfillment of an ancient prophecy **Who Do We Think We Are?** Philip Yale Nicholson, 2016-12-05

This text offers a provocative explanation of the force and place of race in modern history showing that race and nation have a linked history The author seeks to show the close historical connection of race and nation as each interrelates with the other in shaping and carrying social and institutional practices over many centuries Civilization: Contents, Discontents, and Malcontents and Other Essays (c) Stanford M. Lyman, 1990

American Beginnings Emerson W. Baker, 1994-01-01 This illustrated collection of essays examines early Native American contact with European explorers fishermen and traders in Norumbega the sixteenth century name of the Atlantic coast of New England near the Penobscot River in Maine This coast was the focus of several French and English voyagers seeking a northwest passage and other avenues to riches and treasure A tacit division gradually emerged the French concentrated on the region north of the Penobscot and the English on the lands to the south The 100 illustrations in this book come largely from the Osher Map Library at the University of Southern Maine and include many rare early maps 1500 1800 Ten are reproduced in full color **An American Health Dilemma** W.

Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of *An American Dilemma* Gunnar Myrdal's 1944 classic about race relations in the USA *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European

university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes *An American Health Dilemma* promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system *Race in North America* Audrey Smedley, 2018-04-20 This sweeping work traces the idea of race for more than three centuries to show that race is not a product of science but a cultural invention that has been used variously and opportunistically since the eighteenth century Updated throughout the fourth edition of this renowned text includes a compelling new chapter on the health impacts of the racial worldview as well as a thoroughly rewritten chapter that explores the election of Barack Obama and its implications for the meaning of race in America and the future of our racial ideology **One Blood** Spencie Love, 2000-11-09 *One Blood* traces both the life of the famous black surgeon and blood plasma pioneer Dr Charles Drew and the well known legend about his death On April 1 1950 Drew died after an auto accident in rural North Carolina Within hours rumors spread the man who helped create the first American Red Cross blood bank had bled to death because a whites only hospital refused to treat him Drew was in fact treated in the emergency room of the small segregated Alamance General Hospital Two white surgeons worked hard to save him but he died after about an hour In her compelling chronicle of Drew's life and death Spencie Love shows that in a generic sense the Drew legend is true throughout the segregated era African Americans were turned away at hospital doors either because the hospitals were whites only or because the black beds were full Love describes the fate of a young black World War II veteran who died after being turned away from Duke Hospital following an auto accident that occurred in the same year and the same county as Drew's African Americans are shown to have figuratively bled to death at white hands from the time they were first brought to this country as slaves By preserving their own stories Love says they have proven the enduring value of oral history General Interest Race Relations *The Vanishing American* Brian W. Dippie, 1991 Traces the turns of U S Indian policy and the effects of white social attitudes on Indian assimilation **American Indians and the American Imaginary** Pauline Turner Strong, 2015-11-17 *American Indians and the American Imaginary* considers the power of representations of Native Americans in American public culture The book's wide ranging case studies move from colonial captivity narratives to modern film from the camp fire to the sports arena from legal and scholarly texts to tribally controlled museums and cultural centres The author's ethnographic approach to what she calls representational practices focus on the emergence use and transformation of representations in the course of social life Central themes include identity and otherness indigenous cultural politics and cultural memory property performance citizenship and transformation *American Indians and the American Imaginary* will interest general readers as well as scholars and students in anthropology history literature education cultural studies gender studies American Studies and Native American and Indigenous Studies It is essential reading for those interested in the processes through which national tribal and indigenous identities have been imagined contested and refigured *The Harvard Guide to*

African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

The White Image in the Black Mind Mia

Bay, 2000-02-10 How did African American slaves view their white masters As demons deities or another race entirely When nineteenth century white Americans proclaimed their innate superiority did blacks agree If not why not How did blacks assess the status of the white race Mia Bay traces African American perceptions of whites between 1830 and 1925 to depict America's shifting attitudes about race in a period that saw slavery emancipation Reconstruction and urban migration Much has been written about how the whites of this time viewed blacks and about how blacks viewed themselves By contrast the ways in which blacks saw whites have remained a historical and intellectual mystery Reversing the focus of such fundamental studies as George Fredrickson's *The Black Image in the White Mind* Bay investigates this mystery In doing so she uncovers and elucidates the racial thought of a wide range of nineteenth century African Americans educated and unlettered male and female free and enslaved

Black Hawk Kerry A. Trask, 2013-12-24 This stirring chronicle of the 1832 Black Hawk War examines the forces struggling for control over the American frontier The Sauk Nation once occupied one of North America's largest and most prosperous Indian settlements The hundreds of acres along the Mississippi River were the envy of white Americans who had already begun to encroach upon the rich Indian land When the conflicts between natives and white squatters turned violent the Sauks were forced to permanently evacuate the east side of the Mississippi River In the spring of 1832 the Sauk leader Black Hawk along with 700 warriors defiantly crossed the Mississippi from Iowa to Illinois in order to reclaim their ancestral home The three month conflict which ended in the massacre of surrendering Sauk fighters dramatically embodies the Republic's inner conflict between its belief in freedom and its insatiable appetite for new territory In *Black Hawk* Kerry A Trask gives new and vivid life to the heroic efforts of Black Hawk and his men illuminating the tragic history of frontier America through the eyes of those who were cast aside in the pursuit of the new nation's manifest destiny

Encyclopedia of the Underground Railroad J. Blaine Hudson, 2015-01-09 Fugitive slaves were reported in the American colonies as early as the 1640s and escapes escalated with the growth of slavery over the next 200 years As the number of fugitives rose the Southern states pressed for harsher legislation to prevent escapes The Fugitive Slave Act of 1850 criminalized any assistance active or passive to a runaway slave yet it only encouraged the behavior it sought to prevent Friends of the fugitive whose previous assistance to runaways had been somewhat haphazard increased their efforts at organization By the onset of the Civil War in 1861 the Underground Railroad included members defined stops set escape routes and a code language From the abolitionist movement to the Zionville Baptist Missionary Church this encyclopedia focuses on the people ideas events and places associated with the interrelated histories of fugitive slaves the African American struggle for equality and the American antislavery movement Information is drawn from primary sources such as

public records document collections slave autobiographies and antebellum newspapers *Crimes of Hate* Phyllis B. Gerstenfeld, Diana R. Grant, 2004 *Crimes of Hate Selected Readings* is the first comprehensive reader to offer an up to date multidisciplinary examination of hate crimes Editors Phyllis B Gerstenfeld and Diana R Grant include articles from a variety of disciplines including criminal justice criminology sociology psychology and political science With introductions discussion questions and resource lists this unique anthology combines the most current research on hate crimes with accessible articles from scholarly and legal journals in a single easily understood format Developed as a companion to Gerstenfeld's *Hate Crimes Causes Controls and Controversies* this innovative reader will provoke thought and discussion in undergraduate and graduate students in criminology criminal justice and sociology courses **The Great Encounter** Jayme A. Sokolow, 2016-07-08 Traditional histories of North and South America often leave the impression that Native American peoples had little impact on the colonies and empires established by Europeans after 1492 This groundbreaking study which spans more than 300 years demonstrates the agency of indigenous peoples in forging their own history and that of the Western Hemisphere By putting the story of the indigenous peoples and their encounters with Europeans at the center a new history of the New World emerges in which the Native Americans become vibrant and vitally important components of the British French Spanish and Portuguese empires In fact their presence was the single most important factor in the development of the colonial world By discussing the great encounter of peoples and cultures this book provides a valuable new perspective on the history of the Americas **Black Zion** Yvonne Patricia Chireau, Nathaniel Deutsch, 2000 This is an exploration of the interaction between African American religions and Jewish traditions beliefs and spaces The collection's argument is that religion is the missing piece of the cultural jigsaw and black Jewish relations need the religious roots of their problem illuminated
