The book exposes the true interests of the people involved in the operation regulation and investigation into Titanic and lays bare the technology so dramatically destroyed Juxtaposing the duelling worlds of economics and safety this study rationalises the mindset that wilfully dispatched the world s largest ship out to sea with a deficient supply of lifeboats Using original material this fascinating book explores not only how the sinking occurred but also examines the significance and allure of Titanic as well as boldly establishing a future for the wreck itself **Entwined Lives** Nancy Segal, 2000-04-01 Twins are nature s living laboratories Through them we are able to uncover new information concerning the genetic and environmental factors affecting who we are Studies using identical and fraternal twins hold the keys to understanding our intellectual abilities personality traits social attitudes and behavior In Entwined Lives Dr Nancy Segal brings together cutting edge information with illustrative case histories of twins

and their families In addition to the fascinating stories of identical twins reared apart and reunited as adults Dr Segal provides insights into the unusual language patterns of twins how twin studies affect legal decisions the role of fertility treatments in twin and twinlike conceptions and more This groundbreaking book explores the ways in which twins enhance our knowledge of human behavioral and physical development while shedding new light on the nature nurture debate and on the burgeoning field of evolutionary psychology The living twin Peter Bourguin, Carmen Cortés, 2024-06-11 Did you know that many people who are born as a single child began life accompanied by a brother or sister that died during pregnancy and vanished leaving no trace whatsoever And did you know that the frequency which this occurs is amazingly high It s a well known fact verified by science for some decades now that a 10% of babies who are born started their life as a part of a twin pregnancy and then lost their sibling during the first months of gestation This phenomenon had remained purely statistical until quite recently Only in the last few years has psychology started to become interested in the effects that this experience may have on the surviving twin Wha might the consequences be of spending the first weeks or months of one s life with a twin in utero but then to suffer their loss and be born alone How can person process and assimilate this primary experience when frequently it is ignored and relegated to the unconscious levels of our self. The answers to these and other questions constitute the core of this book which also includes around fifty testimonies that enable us to listen firsthand to the multiple manifestations that result from the experience of being a lone twin Loss and What it Taught Me About Living Tracey Corbett-Lynch, Ralph Riegel, 2022-10-06 Murder cancer Covid 19 an asthma attack and heart attacks Tracey Corbett Lynch has encountered loss in all its guises and has had to learn how to cope with life at its most difficult and overwhelming In Loss and What It Taught Me About Living Tracey describes these tragic losses their impact on her and how she learnt to live alongside them with strength and grace She recounts how she coped when it all seemed too much to bear and looks at how we can emerge from suffering forever changed by loss but filled with optimism No two grief journeys are the same but as Tracey discovered some of the stations along the route are Her moving and uplifting story will offer comfort practical advice and a ray of hope to anyone suffering their own loss whatever that might be Attachment Volume 3 Number 2 Joseph Schwartz, Kate White, 2009-07-30 Attachment New Directions in Psychotherapy and Relational Psychoanalysis is a leading edge journal for clinicians working relationally with their clients It is a professional journal featuring cultural articles politics reviews and poetry relevant to attachment and relational issues an inclusive journal welcoming contributions from clinicians of all orientations seeking to make a contribution to attachment approaches to clinical work an international journal open to ideas and practices from all countries and cultures and a cutting edge journal with up to date briefings on latest developments in neuroscience relevant to psychotherapy and counselling Articles Trees in Shades of Grey Trauma Attachment and Dissociation in the Personal Clinical and Socio Political Settings by Asaf Rolef Ben Shahar Attachment Issues Associated with the Loss of a Co twin before Birth by Althea Hayton Supervision A Space Where Diversity Can Be Thought
