A Nation Forged in War Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance A Nation Forged in War is the first full length study of how large scale mobilization during the Second World War helped to dissolve longstanding differences among White soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith s defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy s victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented A Nation Forged in War is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

Loyd Lee, 1997-08-21: A broadly interdisciplinary work, this handbook discusses the best and most enduring literature related to the major topics and themes of World War II. Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence, while political and diplomatic history is covered in chapters on international relations, resistance movements, and collaboration. The volume analyzes themes of domestic history in essays on economic mobilization, the home fronts, and women in the military and civilian life. The book also covers the Holocaust. This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities. Except for nonprint material, the literature, research, and sources surveyed are primarily those available in English. The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war.

Homeward Bound Richard H. Taylor, 2007-02-28: The story of veterans coming home from wars has not been concisely recorded to highlight the major problems they've faced. Having gone to war and survived, they have expectations, hopes, and dreams of a better life. In *Homeward Bound*, Taylor chronicles their struggles to realize all of those expectations by tracing the experiences of American veterans from the Revolutionary War through the current conflicts in Iraq and Afghanistan. In doing so, he connects pieces of a longer, larger story that has traditionally been told only in individual parts. *Homeward Bound* delves into personal memoirs, dusty diaries, and teary interviews to link veterans' hopes for the future with the ways in which their dreams were fulfilled or died. It shows how war changed these men and women, how they lived with their experiences despite the odds, and how alone they can be. Accompanying photographs relate still other stories, those written on our veterans' gallant faces.
