**Food Is Love** Katherine J. Parkin,2011-06-03 Modern advertising has changed dramatically since the early twentieth century but when it comes to food Katherine Parkin writes the message has remained consistent Advertisers have historically

promoted food in distinctly gendered terms returning repeatedly to themes that associated shopping and cooking with women. Foremost among them was that regardless of the actual work involved women should serve food to demonstrate love for their families. In identifying shopping and cooking as an expression of love, ads helped to both establish and reinforce the belief that kitchen work was women's work even as women's participation in the labor force dramatically increased. Alternately flattering her skills as a homemaker and preying on her insecurities, advertisers suggested that using their products would give a woman irresistible sexual allure, a happy marriage and healthy children. Ads also promised that by buying and making the right foods a woman could help her family achieve social status, maintain its racial or ethnic identity and assimilate into the American mainstream. Advertisers clung tenaciously to this paradigm throughout great upheavals in the patterns of American work, diet and gender roles. To discover why *Food Is Love* draws on thousands of ads that appeared in the most popular magazines of the twentieth and early twenty-first centuries including the *Ladies Home Journal*, *Good Housekeeping*, *Ebony* and the *Saturday Evening Post*, the book also cites the records of one of the nation's preeminent advertising firms as well as the motivational research advertisers utilized to reach their customers. [The Love Touch](#) Frank L. Clark, 2011-12-14. The 5000-year-old history of touch was well understood by wise men, kings and queens, royal courts, astrologist professors and philosophers. These historical figures learned and understood how daily touch was important to their well-being. We have come a long way since then and now know that children can die with touch. Touch supplies the basic needs in our wonderfully orchestrated childhood development. Daily touch is as important as breathing. Look inside and learn how important daily touch is to your stressful lives. **A Memoir of Love** Jessiqua Wittman, 2012-06-04. A post-apocalyptic world, an unlikely band of revolutionaries, this is the memoir of their struggles and triumphs. A woman describes a refugee colony's dramatic rise to power. The governmental shift was bound to happen; the only question in the matter is who will be the leader of this new nation. Written in first person, this memoir provides an inside look at those whose lives are destined to become swallowed up and defined by political intrigue. Great men and women go through all the same trials and temptations ordinary people go through; the stakes are just much higher because everybody is watching them.
