Confrontation with the Unconscious Scott J. Hill, 2019-06-05 An exploration of the use of psychedelics and Jung's work on trauma the shadow psychosis and psychospiritual transformation Carl Gustav Jung pioneered the transformative potential of the deep unconscious Psychedelic substances provide direct and powerful access to this inner world How then might Jungian psychology help us to better understand the nature of psychedelic experiences And how might psychedelics assist the movement toward psychological transformation described by Jung Jungian depth psychology and psychedelic psychotherapy are both concerned with coming to terms with unconscious drives complexes and symbolic images Unaware of significant evidence for the safe clinical use of psychedelic drugs Jung himself remained wary of psychedelics and staunchly opposed their therapeutic use His bias has prevented Jungians from objectively considering the benefits as well as the risks of using psychedelics for psychological healing and growth

Confrontation with the Unconscious intertwines psychedelic research personal accounts of psychedelic experiences and C G Jung's work on trauma the shadow psychosis and psychospiritual transformation including Jung's own confrontation with the unconscious to show the relevance of Jung's penetrating insights to the work of Stanislav Grof Ann Shulgin Ronald Sandison Margot Cutner among other psychedelic and transpersonal researchers and to demonstrate the great value of Jung's penetrating insights for understanding difficult psychedelic experiences and promoting safe and effective psychedelic exploration and psychotherapy

History of Psychology through Symbols James L. Broderick, 2023-12-15 Volume Two of The History of Psychology through Symbols continues a groundbreaking approach of using symbols to deepen the understanding of psychological history as well as the importance of how one lives an emphasis on engagement with symbols and with specific exercises called emancipatory opportunities to apply the lessons of psychological history to daily life From the birth of modern psychology in the laboratory of Wilhelm Wundt Volume Two discusses how the early theories of voluntarism structuralism evolution and pragmatism influenced the modern development of psychology The importance of making unconscious shadow forces in science conscious is explored through the impact of the eugenic movement the controversies surrounding the development of psychological testing and current research biases in psychology Volume Two

describes how clinical psychology emerged as a powerful profession in mental health care The Four Forces of Psychology are explored through their natural and hermeneutic science influences Psychoanalytic and Jungian analytical psychology comprise the first force behaviorism the second force humanistic existential the third force and transpersonal psychology the fourth force that includes a groundbreaking discussion of psychedelic history and research that could revolutionize mental health and drug and alcohol treatment Rejecting that science transcends historical events this volume provides a political socioeconomic and cultural context for modern psychology and all Four Forces of Psychology This book is ideal for those seeking a dynamic and engaging way of learning about or teaching the history of psychology and would also be of interest to students practitioners and scholars of science philosophy history and systems religious studies art and mental health and drug and alcohol treatment as well as those interested in applying the lessons of history to daily life Learn more about this groundbreaking text and its symbols on the special website www.psychologyandsymbols.com *A Fractal Epistemology for*

a Scientific Psychology Terry Marks-Tarlow, Yakov Shapiro, Kathe P. Wolf, Harris L. Friedman, 2020-01-06 Fractal dynamics provide an unparalleled tool for understanding the evolution of natural complexity throughout physical biological and psychological realms This book's conceptual framework helps to reconcile several persistent dichotomies in the natural sciences including mind brain linear nonlinear subjective objective and even personal transpersonal processes A fractal approach is especially useful when applied to recursive processes of consciousness both within their ordinary and anomalous manifestations This novel way to study the interconnection of seemingly divided wholes encompasses multiple dimensions of experience and being It brings together experts in diverse fields neuropsychologists psychiatrists physicists physiologists psychoanalysts mathematicians and professors of religion and music composition to demonstrate the value of fractals as model method and metaphor within psychology and related social and physical sciences The result is a new perspective for understanding what has often been dismissed as too subjective idiosyncratic and ineffably beyond the scope of science bringing these areas back into a natural scientific framework **Psychology of the Future** Stanislav Grof, 2019-03-28

Summarizes Grof's experiences and observations from more than forty years of research into non ordinary states of consciousness This accessible and comprehensive overview of the work of Stanislav Grof one of the founders of transpersonal psychology was specifically written to acquaint newcomers with his work Serving as a summation of his career and previous works this entirely new book is the source to introduce Grof's enormous contributions to the fields of psychiatry and psychology especially his central concept of holotropic experience where holotropic signifies moving toward wholeness Grof maintains that the current basic assumptions and concepts of psychology and psychiatry require a radical revision based on the intensive and systematic research of holotropic experience He suggests that a radical inner transformation of humanity and a rise to a higher level of consciousness might be humankind's only real hope for the future It's rare to find a textbook that is both extremely informative and enjoyable to read *Psychology of the Future* has to be one of the first ones I've ever

come across Each chapter brought an entirely new concept theory or method that was just as engaging as the previous one

Dr Tami Brady TCM Reviews This book is by a pioneering genius in consciousness research It presents the full spectrum of Grof's ideas from his earliest mappings of using LSD psychotherapy to his clinical work with people facing death to his more recent work with holotropic breathing to his latest thoughts about the cosmological implications of consciousness research and the prospects for dealing with an emerging planetary crisis Grof has always been one of the most original thinkers in the transpersonal field and his creativity has kept pace with the maturity of his overall vision Michael Washburn author of Transpersonal Psychology in Psychoanalytic Perspective Grof offers an outstanding contribution to the ever growing debate about the nature of human consciousness and about the place of humankind in the cosmos If more psychiatrists could be persuaded that human consciousness transcends the limitations of the physical brain and instead is but an aspect of what may best be described as cosmic consciousness we could not only expect treatment modalities to change but we could also anticipate the possibility of culture wide rethinking of the basic presuppositions of modern cosmology the cosmology that grounds Western institutions ideologies and beliefs about the nature of personhood Michael E Zimmerman author of Contesting Earth's Future Radical Ecology and Postmodernity Stanislav Grof MD is a psychiatrist with more than fifty years of experience in research of non ordinary states of consciousness He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague Czechoslovakia Chief of Psychiatric Research at the Maryland Psychiatric Research Center Assistant Professor of Psychiatry at the Johns Hopkins University and Scholar in Residence at the Esalen Institute He is currently Professor of Psychology at the California Institute of Integral Studies conducts professional training programs in holotropic breathwork and gives lectures and seminars worldwide He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association ITA In 2007 he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague He is the author and editor of many books including The Adventure of Self Discovery Dimensions of Consciousness and New Perspectives in Psychotherapy and Inner Exploration Ancient Wisdom and Modern Science Beyond the Brain Birth Death and Transcendence in Psychotherapy The Cosmic Game Explorations of the Frontiers of Human Consciousness and Human Survival and Consciousness Evolution all published by SUNY Press
