 Nalinipriya, Om Prakash Jena, Achyuth Sarkar, 2021-03-24 When considering the idea of using machine learning in healthcare
 it is a Herculean task to present the entire gamut of information in the field of intelligent systems It is therefore the objective
 of this book to keep the presentation narrow and intensive This approach is distinct from others in that it presents detailed
 computer simulations for all models presented with explanations of the program code It includes unique and distinctive
 chapters on disease diagnosis telemedicine medical imaging smart health monitoring social media healthcare and machine
 learning for COVID 19 These chapters help develop a clear understanding of the working of an algorithm while strengthening
 logical thinking In this environment answering a single question may require accessing several data sources and calling on
 sophisticated analysis tools While data integration is a dynamic research area in the database community the specific needs
 of research have led to the development of numerous middleware systems that provide seamless data access in a result
 driven environment Since this book is intended to be useful to a wide audience students researchers and scientists from both
 academia and industry may all benefit from this material It contains a comprehensive description of issues for healthcare
 data management and an overview of existing systems making it appropriate for introductory and instructional purposes
 Prerequisites are minimal the readers are expected to have basic knowledge of machine learning This book is divided into 22
 real time innovative chapters which provide a variety of application examples in different domains These chapters illustrate
 why traditional approaches often fail to meet customers needs The presented approaches provide a comprehensive overview
 of current technology Each of these chapters which are written by the main inventors of the presented systems specifies
 requirements and provides a description of both the chosen approach and its implementation Because of the self contained
 nature of these chapters they may be read in any order Each of the chapters use various technical terms which involve
 expertise in machine learning and computer science *Image Analysis and Processing - ICIAP 2022* Stan Sclaroff, Cosimo
