*Manuscripts and memories* Michael Earls, 1967      **Manuscripts and Memories** Michael Earls, 1967      **Manuscripts and Memories of Minneapolis**, 1988      Manuscripts and memories. Chapters in our literary tradition. (Repr.) Michael Earls (S. J.), 1967      Archives, Documentation, and Institutions of Social Memory Francis Xavier Blouin, William G. Rosenberg, 2006-03-31 As sites of documentary preservation rooted in various national and social contexts artifacts of culture and places of uncovering archives provide tangible evidence of memory for individuals communities and states as well as defining memory institutionally within prevailing political systems and cultural norms By assigning the prerogatives of record keeper to the archivist whose acquisition policies finding aids and various institutionalized predilections mediate between scholarship and information archives produce knowledge legitimize political systems and construct identities Far from being mere repositories of data archives actually embody the fragments of culture that endure as signifiers of who we are and why The essays in *Archives Documentation and Institutions of Social Memory* conceive of archives not simply as historical repositories but as a complex of structures processes and epistemologies situated at a critical point of the intersection between scholarship cultural practices politics and technologies      **Manuscript, Print and Memory** Eva Maria Wilden, 2014-11-10 The ancient Tamil poetic corpus of the *Ca am* The Academy is a national treasure for Tamilians and a battle ground for linguists and historians of politics culture and literature Going back to oral predecessors probably dating back to the beginning of the first millennium it has had an extremely rich and variegated history Collected into anthologies and endowed with literary theories and voluminous commentaries it became the centre piece of the Tamil literary canon associated with the royal court of the Pandya dynasty in Madurai Its decline began in the late middle ages and by the late 17th century it had fallen into near oblivion before being rediscovered at the beginning of the print era The present study traces the complex historical process of its transmission over some 2000 years using and documenting a wide range of sources in particular surviving manuscripts the early prints the commentaries of the literary and grammatical traditions and a vast range of later literature that creates a web of inter textual references and quotations      Manuscripts and Memories Michael Earles, 1973-01-01      New Studies in the Manuscript Tradition of Njáls saga Svanhildur Óskarsdóttir, Emily Lethbridge, 2018-10-22 *Nj ls* saga is the best known and most highly regarded of all medieval Icelandic sagas and it occupies a special place in Icelandic cultural history The manuscript tradition is exceptionally rich and extensive The oldest extant manuscripts date to only a couple of decades after the saga s composition in the late 13th century and the saga was subsequently copied by hand continuously up until the 20th century even alongside the circulation of printed text editions in latter centuries The manuscript corpus as a whole has great socio historical value showcasing the myriad ways in which generations of Icelanders interpreted the saga and took an active part in its transmission the manuscripts are also valuable sources for evidence of linguistic change and other phenomena The essays in this volume present new research and a range

of interdisciplinary perspectives on the Nj ls saga manuscripts Many of the authors took part in the international research project The Variance of Nj ls saga which was funded by the Icelandic Research Council from 2011-2013
