Focusing on key transformational moments, this richly illustrated book provides insight into the visionary figures and events that led The Met in new directions. Among the many topics explored are the impact of momentous acquisitions, the central importance of education and accessibility, the collaboration that resulted from international excavations, the Museum's role in preserving cultural heritage, and its interaction with contemporary art and artists. Complementing this fascinating history are more than two hundred works that changed the very way we look at art, as well as rarely seen archival and behind-the-scenes images. In the final chapter, Met Director Max Hollein offers a meditation on evolving approaches to collecting art from around the world, strategies for reaching new and diverse audiences, and the role of museums today. *The Numismatist*, 1910.
