women musicians critique gender relations in society Burns uses audio and video interviews recordings of rehearsals and performances and detailed collaborative analyses of song texts dance routines and performance practice to address important methodological shifts in ethnomusicology that outline a more humanistic perspective of music cultures This perspective encompasses the inter linkages between history social processes and individual creative artists The voices of Dzigbordi women provide us not only with a more complete picture of Ewe music making they further allow us to better understand the relationship between culture social life and individual creativity The book will therefore appeal to those interested in African Studies Gender Studies and Oral Literature as well as ethnomusicology Includes documentary on the downloadable resources
