## **Mao Zedong Report From Xunwu:**

**Report from Xunwu** Zedong Mao, 1990 Long described as lost this report was the result of Mao Zedong's investigation in 1930 of the people economy society and history of the obscure rural county of Xunwu in South China. An extraordinary document that far exceeds in scope and depth Mao's other investigative reports on rural China, the report is a rich source of information on rural administration, commerce, transportation, communication, education, land tenure, taxation, religion, diverse social relations and practices, and struggle in one obscure area that was a microcosm of China. Thompson has translated and presented Mao's report with extensive notes. The book is designed to be accessible to non-specialists and it will be welcomed by those interested in the Chinese countryside, comparative revolution, and historical anthropology. Because Mao's report on Xunwu was part of a revolutionary programme, the report raises complex questions about academic and activist readings of social realities. *Report from Xunwu* Zedong Mao, 2022

**Mao's Road to Power: Revolutionary Writings, 1912-49: v. 4: The Rise and Fall of the Chinese Soviet Republic, 1931-34** Zedong Mao, Stuart Schram, 2016-04-08 This projected ten volume edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources, including the many new texts that appeared in 1993 Mao's centenary.

**Thought Reform and China's Dangerous Classes** Aminda M. Smith, 2013 This book offers the first detailed study of the essential relationship between thought reform and the dangerous classes. The prostitutes, beggars, petty criminals, and other lumpenproletarians the Communists saw as a threat to society and the revolution. Aminda Smith takes readers inside early PRC reformatories where the new state endeavored to transform vagrants into members of the laboring masses. As places where the people were literally created, these centers became testing grounds for rapidly changing ideas and experiments about thought reform and the subjects they produced. Smit

**Propaganda and Culture in Mao's China** Timothy Cheek, 1997 This biography of Deng Tuo 1912-1966 is a social history of intellectuals as agents in China's socialist revolution. It places Deng Tuo's writings and ideas in the rich context of his social experience as a member of the Communist bureaucracy and as an elite artist and aesthete. The tension between service to politics and service to culture was ultimately disastrous for Deng and for China's revolution; his ghost haunts the halls of power in Beijing today. *Marxism in the*

*Chinese Revolution* Arif Dirlik, 2005 Representing a lifetime of research and writing by noted historian Arif Dirlik, the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades. Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social, political, and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory. The book's historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations. These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid-century to the virtual abandonment by

century's end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party. All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present. Taken together his writings reaffirm the centrality of the revolution to modern Chinese history. They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism. *The Rise to Power of the Chinese Communist Party* Tony

Saich, Benjamin Yang, 2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement. They show how the Chinese Communist Party interpreted the revolution how it devised policies to meet changing circumstances and how these policies were communicated to party members and public. **A Native Chieftaincy in**

**Southwest China** Jennifer Took, 2005 This book explores a Zhuang native chieftaincy enfranchised under the Chinese tusi system and its relationship with the Chinese imperial state. It sheds critical light on the social and political organization of the strategic Chinese-Vietnamese border area over 600 years. **America's Cold War against China** Peter Nolan, 2024-09-09

This book discusses how the USA has launched a new cold war against China. Showing how this New Cold War can only be fully understood by analysing the long run history of the East and the West and the fundamental differences between the Old and the New Cold Wars this book outlines how the New Cold War focuses on issues connected with China's territorial integrity Xinjiang the South China Sea Hong Kong Taiwan and the closely connected conflict over semiconductors. It analyses the way in which China has responded to US-led Western aggression by following the approach suggested by Confucius instead of returning aggression with kindness or returning aggression with aggression. China has returned aggression with firmness. The book argues that the United States effort to establish hegemony over Eurasia has failed and that in the face of this reality there is no choice for the USA other than to cooperate with China in order to resolve the existential issues facing the human species. Demonstrating how US-led aggression has been rendered ineffective this book will be a valuable resource to students and scholars of international relations and politics including those in both China and the USA. **China in War**

**and Revolution, 1895-1949** Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century. It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government. The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society. Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation. While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism. Essential reading

for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades *Civil War in China* Suzanne Pepper,1999 Many books have tried to analyze the reasons for the Chinese communist success in China s 1945\_1949 civil war but Suzanne Pepper s seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war\_not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics **Changing Clothes in China** Antonia Finnane,2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs *People's Wars in China, Malaya, and Vietnam* Marc Oppen,2019-11-08 People s Wars in China Malaya and Vietnam explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 People s Wars breaks new ground in systematically analyzing and comparing these

three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians

**Smokeless Sugar** Emily M. Hill, 2010-10-20 Part history part biography and part mystery story Smokeless Sugar reveals how the concept of a national economy took shape in China by investigating the 1936 execution of Feng Rui a provincial official who introduced modern sugar milling in Guangdong Examining the circumstances of Feng Rui's arrest on charges of corruption Emily Hill traces the construction of a Chinese national economy through cross border interactions between industry and agriculture and between China and Japan She makes the case that Feng was in fact a scapegoat in a multi sided power struggle in which political leaders vied with commercial players for access to China's markets and tax revenues This illuminating study challenges conventional wisdom about the effectiveness of the Republican state in promoting national unity during the Nanjing decade and highlights continuities in official economic policies from the 1930s to the Communist era

*Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945* Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change
