Map Of Paradise:

Maps of Paradise Alessandro Scafi, 2014-02-15 Where is paradise It always seems to be elsewhere inaccessible outside of time Either it existed yesterday or it will return tomorrow it may be just around the corner on a remote island beyond the sea Across a wide range of cultures paradise is located in the distant past in a longed for future in remote places or within each of us In particular people everywhere in the world share some kind of nostalgia for an innocence experienced at the beginning of history For two millennia learned Christians have wondered where on earth the primal paradise could have been located Where was the idyllic Garden of Eden that is described in the Bible In the Far East In equatorial Africa In Mesopotamia Under the sea Where were Adam and Eve created in their unspoiled perfection Maps of Paradise charts the diverse ways in which scholars and mapmakers from the eighth to the twenty first century rose to the challenge of identifying the location of paradise on a map despite the certain knowledge that it was beyond human reach Over one hundred illustrations celebrate this history of a paradox the mapping of the unmappable It is also a mirror to the universal dream of perfection and happiness and the yearning to discover heaven on earth *A Map to Paradise* Susan Meissner, 2025-03-18 1956 Malibu California Something is not right on Paradise Circle With her name on the Hollywood blacklist and her life on hold starlet Melanie Cole has little choice in company There is her next door neighbor Elwood but the screenwriter s agoraphobia allows for just short chats through open windows He s her sole confidante though as she and her housekeeper Eva an immigrant from war torn Europe rarely make conversation Then one early morning Melanie and Eva spot Elwood s sister in law and caretaker June digging in his beloved rose garden After that they don t see Elwood at all anymore Where could a man who never leaves the house possibly have gone As they try to find out if something has happened to him unexpected secrets are revealed among all three women leading to an alliance that seems the only way for any of them to hold on to what they can still call their own But it s a fragile pact and one little spark could send it all up in smoke *A Map of Paradise* Linda Ching Sledge, 1997 The acclaimed author of *Empire of Heaven* called by the New York Times a Chinese *Gone With the Wind* now creates a richly told immigrant saga of nineteenth century Hawaii With its green cliffs and silvery waterfalls Hawaii offers radiant hope to Rulan and Pao An exiles from Chinese tyranny immigrants with the will to succeed despite hardship and prejudice and enemies from their homeland But this proud couple s hardest struggle will be with their own child Mulan called Molly Born in Hawaii s sacred hills Molly grows to despise the old Chinese ways Locked in perpetual combat with her new parents she is drawn into a dangerous love affair with a glamorous but decadent poet a protege of the king And even as the family s fortunes rise Molly s mother watches in sorrow fearing that her child will realize too late that happiness lies far closer to home Beautifully told *A Map of Paradise* offers the colorful sweep of history with the satisfaction of characters intimately revealed **Mapping Paradise** Alessandro Scafi, 2006 Alessandro Scafi s fascinating account looks at the perception of world geography and the place of paradise within that Central to this discussion are the key debates

prevalent from the Renaissance about faith and reason theology and philosophy and paradise both as an internal and external reality

The World Map, 1300-1492 Evelyn Edson,2007-07-15 A history of the development of world maps during the later medieval period in the centuries leading up to Columbus's journey In the two centuries before Columbus mapmaking was transformed The World Map 1300 1492 investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery A comprehensive and complex picture of the changing face of medieval geography With the mastery of a formidable palette of historiographic knowledge and well reasoned discussions of the sources The World Map 1300 1492 will certainly remain an important work to consult for both medieval and early modern scholars for many years to come Ian J Aebel Terrae Incognitae

Henricus Martellus's World Map at Yale (c. 1491) Chet Van Duzer,2018-08-03 This book presents groundbreaking new research on a fifteenth century world map by Henricus Martellus c 1491 now at Yale The importance of the map had long been suspected but it was essentially unstudiable because the texts on it had faded to illegibility Multispectral imaging of the map performed with NEH support in 2014 rendered its texts legible for the first time leading to renewed study of the map by the author This volume provides transcriptions translations and commentary on the Latin texts on the map particularly their sources as well as the place names in several regions This leads to a demonstration of a very close relationship between the Martellus map and Martin Waldseemüller's famous map of 1507 One of the most exciting discoveries on the map is in the hinterlands of southern Africa The information there comes from African sources the map is thus a unique and supremely important document regarding African cartography in the fifteenth century This book is essential reading for digital humanitarians and historians of cartography
