## **Marcel Duchamp Artist Of The Century:**

Marcel Duchamp Rudolf E. Kuenzli, Francis M. Naumann, 1991 Artist of the Century These eleven illustrated essays explore the structure and meaning of Duchamp's work as part of an ongoing critical enterprise that has just begun

Marcel Duchamp, 1990      **Marcel Duchamp** Marcel Duchamp, 1987      *Marcel Duchamp*, 2009      *Marcel Duchamp: Artist of the Century* Rudolf E. Kuenzli, Francis M. Naumann, 1991      *Marcel Duchamp* Dawn Ades, Neil Cox, David Hopkins, 1999 Genius anti artist charlatan guru impostor Since 1914 Marcel Duchamp has been called all these No artist of the 20th century has aroused more passion and controversy nor exerted a greater influence on art whose very nature Duchamp challenged and redefined as concept rather than product by questioning its traditionally privileged optical nature At the same time he never ceased to be engaged openly or secretly in provocative activities and works which transformed traditional artmaking procedures Thirty years of research have gone into this accessible text on a complex artist Written with the enthusiastic support of Duchamp's widow this is one of the most original and important books ever written on this enigmatic artist and challenges received ideas misunderstanding and misinformation      Modern Art Marcel Duchamp, 2021-04 A book that uses 21st century technology to elevate art to a new medium and poses the long debated question what is art Should we only praise retinal art intended only to please the eye and not use art to serve the mind

**Art of the 20th Century** Karl Ruhrberg, Klaus Honnef, Manfred Schneckenburger, Christiane Fricke, 2000 The original edition of this ambitious reference was published in hardcover in 1998 in two oversize volumes 10x13 This edition combines the two volumes into one it's paperbound flexi cover the paper has a plastic coating smaller 8x10 and affordable for art book buyers with shallower pockets none of whom should pass it by The scope is encyclopedic half the work originally the first volume is devoted to painting the other half to sculpture new media and photography Chapters are arranged thematically and each page displays several examples in color of work under discussion The final section a lexicon of artists includes a small bandw photo of each artist as well as biographical information and details of work writings and exhibitions Ruhrberg and the three other authors are veteran art historians curators and writers as is editor Walther c Book News Inc

**Duchamp's Last Day** Donald Shambroom, 2018-11-20 Published on the fiftieth anniversary of Marcel Duchamp's death Duchamp's Last Day offers a radical reading of the artist's final hours Just moments after Duchamp died his closest friend Man Ray took a photograph of him His face is wan his eyes are closed he appears calm Taking this image as a point of departure Donald Shambroom begins to examine the surrounding context the dinner with Man Ray and another friend Robert Lebel the night Duchamp died the conversations about his own death at that dinner and elsewhere and the larger question of whether this radical artist's death can be read as an extension of his work Shambroom's in depth research into this final night and his analysis of the photograph feeds into larger questions about the very nature of artworks and authorship which Duchamp raised in his lifetime In the case of this mysterious and once long lost photograph who is the

author Man Ray or Duchamp Is it an artwork or merely a record Has the artist himself turned into one of his own readymades A fascinating essay that is both intimate and steeped in art history Duchamp's Last Day is filled with intricate details from decades of research into this peculiar encounter between art life and death Shambroom's book is a wonderful study of one of the greatest artists of the twentieth century *The 20th Century A-GI* Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **Truth About Art, The** Patrick Doorly, 2013-08-30 Both knowledge and truth are beautiful things but the Good is other and more beautiful than they Plato Republic 508e This book traces the multiple meanings of art back to their historical roots and equips the reader to choose between them Art with a capital A turns out to be an invention of German Romantic philosophers who endowed their creation with the attributes of genius originality rule breaking and self expression directed by the spirit of the age Recovering the problems that these attributes were devised to solve dispels many of the obscurities and contradictions that accompany them What artists have always sought is excellence and they become artists in so far as they achieve it Quality was the supreme value in Renaissance Italy and in early Greece it offered mortals glimpses of the divine Today art historians avoid references to beauty or Quality since neither is objective or definable the boundaries beyond which scholars dare not roam In reality subject and object are united and dissolved in the Quality event which forms the bow wave of culture leaving patterns of value and meaning in its wake *Unpacking Duchamp* Dalia Judovitz, 1998-04-28 Transit transitional transition Dalia Judovitz catches Marcel Duchamp on the run with his art in a suitcase and his thought all boxed and ready to go She demonstrates how the theme of transition reappearing from work to work makes each piece reproduce some other piece while all continue to exemplify an original which can no longer be found and which has no creator Jean Fran ois Lyotard

**The Turn of the Century** Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective *The Turn of the Century/Le tournant*

*du siècle* Christian Berg, Frank Durieux, Geert Lernout, 2012-06-21 No detailed description available for *The Turn of the Century* Le tournant du siècle Duchamp and the Aesthetics of Chance Herbert Molderings, 2010-06-04 Situating Duchamp firmly within the literature philosophy of his time Herbert Molderings recaptures the spirit of a frequently misread artist his aesthetic of chance Art of the 20th century Dorothea Eimert, 2016-03-09 The 20th century was a revolutionary period in art history In the span of a few short years Modernism exploded into being disrupting centuries of classical figurative tradition to create something entirely new This astoundingly thorough survey of art's modern era showcases all of the key artistic movements of the 20th century from Fauvism to Pop Art featuring illustrative examples of some of the most renowned works of the era along with illuminating companion essays by expert critics and art historians A vivid window into the collective psyche of the modern world's great artists *Art of the 20th Century* is a must have for any fan of contemporary art

**Frameworks for Modern Art** Jason Gaiger, 2003-01-01 This generously illustrated volume the first in the *Art of the Twentieth Century* series introduces and explores a range of contemporary issues and debates about art and its place in the wider culture today The opening chapter discusses key concepts such as modernity modernism autonomy spectatorship and globalization Four case studies follow each devoted to a specific work of art across the span of the century Marcel Duchamp's *Bottlerack* Barnett Newman's *Eve* Ana Mendieta's *Siluetas* series and *Yarla* by the Australian Aboriginal Yuendumu community These works have been selected not only for their intrinsic interest but also for the way in which they open up wider questions of meaning and interpretation that are central to understanding twentieth century art **Conceptual Revolutions in Twentieth-Century Art** David W. Galenson, 2009-09-14 From Picasso's Cubism and Duchamp's readymades to Warhol's silkscreens and Smithson's earthworks the art of the twentieth century broke completely with earlier artistic traditions A basic change in the market for advanced art produced a heightened demand for innovation and young conceptual innovators from Picasso and Duchamp to Rauschenberg and Warhol to Cindy Sherman and Damien Hirst responded not only by creating dozens of new forms of art but also by behaving in ways that would have been incomprehensible to their predecessors *Conceptual Revolutions in Twentieth Century Art* presents the first systematic analysis of the reasons for this discontinuity David W Galenson whose earlier research has changed our understanding of creativity combines social scientific methods with qualitative analysis to produce a fundamentally new interpretation of modern art that will give readers a far deeper appreciation of the art of the past century and of today than is available elsewhere *Art in France, 1900-1940* Christopher Green, 2000-01-01 This study sets developments within the frameworks both of their unstable social political and intellectual world and of the official and independent institutions of art
