Proust as Interpreter of Ruskin Cynthia J. Gamble, 2002 **Modernism: The Lure of Heresy** Peter Gay, 2010-07-27
Acclaimed cultural historian Peter Gay traces and explores the rise of artistic Modernism the cultural movement that heralded and shaped the modern world dominating western high culture for over a century *Chronology and Time in A la Recherche Du Temps Perdu* Gareth H. Steel, 1979 **Structural Models and African Poetics** Sunday O. Anozie, 2016-08-19 In this pioneering work first published in 1981 Sunday O Anozie examines the relevance of structuralism and semiology to literary criticism in general and to African poetics in particular Behind the growing body of African literature lies an immense reservoir of oral tradition for which the proper tools of analysis and interpretation have yet to be found This book represents the first comprehensive full scale exposition analysis and critique of structuralism by a non Western and non European scholar From an African viewpoint it examines the roles to be played by structuralism and post structuralism in the development of the general principles governing poetics and literary creativity in Africa This title will be of interest to students of literature and literary theory Marcel Proust Roger Shattuck, 1974 *Origins and Identities in French Literature* , 2023-11-27 The essays in this volume investigate origins and identities of individuals and groups in French literature from the seventeenth century to the present as well in French literature in general They show how as France developed a national identity through its literature individuals of various origins searched for their own identities and often called into question not only traditional identities but also the very literary means of creating them **Monographic Series** Library of Congress, **The Key Skill of All Skills** David Myers, 2017-07-10 Everything Is Connected This reference book for life helps make everything you read and do work better It shows you how to acquire the most basic life comprehension and transformation skills connecting one thing with another And then adding more and more pieces of the puzzle together using them in ever new ways as you understand and use the process Learning how to learn is transformational in personal professional life It impacts your work and home life regardless of your age profession geographic location or social status The 10 Lessons provide direct applications to everyday life You can begin at the beginning or you can turn to the sections and lessons that first draw your interest and then move on to others as you begin to understand the process Many other books and experts connect the dots for you as they deliver their advice But there is limited understanding of how to apply it to your own life This guide show you HOW to do for yourself and apply every facet to YOUR work and life Take the journey Unlock the mystery of how to learn Discover and put the pieces of your puzzle together This process will create opportunity for you to get even more out of every aspect of your life **The Elemental Passion for Place in the Ontopoiesis of Life** Anna-Teresa Tymieniecka, 2013-04-18 Continuing the pioneering work in the field laid bare by the uncovering the Creative Condition of the human being in literature and fine arts the elemental passion of place leads us through the creative imagination into the labyrinths of the ontoipoiesis of life itself Tymieniecka in her inaugural
