Justice Denied Christina Liao,2011-11-01 Potential whistle blower beware Whistling blowing act might lead to career suicide So think carefully before you plunge into action because ultimately the price you have to pay is your dismissal Government agency apparently is rarely prepared to admit mistakes or attend to the views expressed by their workers In fact more often than not they would rather deny the charges from workers and continue to not respond to it or even lie about it Government agency often issues its policy statement encouraging its employees to freely express their view without fear of recrimination or retributions But be careful before you take the bait which I did Employees should know that there is also an unwritten policy which is to harass or retaliate against people critical of or who disagree with any action taken by the agency These people are labeled troublemakers and will eventually be terminated Remember government rarely practices what it preaches period Government will often spend an enormous amount of time and resources to orchestrate the removal of the so called whistle blowers a k a troublemakers These whistle blowers are often persecuted for the only crime they committed which is to tell the truth and would ultimately be dismissed from their jobs My advice to the would be whistle blower is this do not blow the whistle unless you are prepared to lose everything It is better to remain silence than to speak out to lose your job
