White, 2022-07-29 Tending the Fire at the Center of the World engages the central question of Christian formation that is what kind of knowing is most likely to awaken and sustain Christian faith This book seeks to reclaim aesthetics beauty and creativity as the church s most native theological way of knowing and being which participates with God s own glory and creativity This book traces the prominence of aesthetics up until the dawn of the Enlightenment including recent theologians who reclaim aesthetics for theology and formation The book elaborates the aims and techniques of aesthetic approaches to teaching and learning in the church Finally this book cautions against overly determined rationalisms and moralisms that do not retain a sense of wonder delight and openness in the church s teaching liturgy and proclamation In this view the church does not simply regurgitate familiar texts political tropes or flattened doctrines but breaks into the world as Christ s body a parable a song a flash mob interrupting business as usual giving new expression to acts of care repentance forgiveness joy and communion awake to the beauty of God s gifts and inviting our worship      *Grace and Nature* Fr. to and investigation of the multivocality of women's experience in the Middle Ages. In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve/Mary. Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated. Towards the end of the Middle Ages however women's corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross. This shift in devotional practices afforded women as bodily beings the space for an increased level of self-expression, self-realisation and authority. Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs, the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women. The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender. Whilst expounding the key strands of thinking in the field it engages with and contributes to some of the latest scholarly research.

Balance of the Heart Lois Farag, 2012-11-06 Desert spirituality speaks to the mind and heart. It is a spirituality that helps us balance our work and daily obligations and figure out our priorities and the place of God in our lives. Desert spirituality addresses our most intimate thoughts and helps us analyze the roots of our spiritual setbacks. Its essence is to love the Lord with all our heart, soul and mind. Matt 22:37. Starting in fourth century Egypt, desert spirituality has become a global phenomenon. It has endured through the centuries because it is practical and simple; it tells us how to

live out Scripture in our daily lives It is also profound it is deeply rooted in the theology of the incarnation and the renewal of creation by the resurrection The desert fathers and mothers left us short wisdom sayings revealing their inner experience in their long journey toward being with God They speak about Scripture and prayer but also about how to love our neighbors discern our thoughts and evaluate our daily activities Come learn from these desert dwellers as they teach us about the examination of thoughts the discernment of the soul and the balance of the heart

**Prayer in the Writings of Jean-Jacques Rousseau** Charles A. Spirn,2008 This book casts a new light on Rousseau s personality and beliefs Although the predominant thinkers of the time had a deistic outlook God as distant and impersonal and stressed rationalism and enlightenment Rousseau stressed man s moral and spiritual aspects and needs including praying to a God who listens and may respond In this book Charles A Spirn has collected the prayers Rousseau wrote which are scattered throughout his writings thus publishing his acclaimed dissertation Rousseau s beliefs are shown to be largely theistic believing in a God who rules the world and has a personal providential and responsive relationship with humanity He is increasingly seen as the most influential French thinker of the 18th century who challenged the great of his day Both clergymen and laymen turned to him for guidance in spiritual and existential matters
