Naturalism A Critical Appraisal:

Naturalism Steven J. Wagner, Richard Wagner, 1993 Naturalism the thesis that all facts are natural facts that is the facts that can be recognised and explained by a natural science plays a central role in contemporary analytical philosophy Yet many philosophers reject the claims of naturalism The essays in this anthology explore the difficulties of naturalism by revealing the ambiguities surrounding it as well as the tensions that exist among its critics Naturalism a Critical Appraisal Wagner, 1993-07-31 **Naturalism** William Lane Craig, J.P. Consciousness and the Existence of God J.P. Moreland, 2010-04-26 In *Consciousness and the Existence of God* JP Moreland argues that the existence of finite irreducible consciousness or its regular law like correlation with physical states provides evidence for the existence of God Considering Searle's contingent correlation O'Connor's emergent necessitation and Nagel's mysterian naturalism Moreland concludes that these versions of naturalism should be rejected in favor of what he calls the Argument from Consciousness

Epistemology Hilary Kornblith, 2014 This volume collects thirteen papers by Hilary Kornblith on the theme of naturalistic epistemology These papers present Kornblith's own version of a naturalistic epistemology together with critical discussion of alternative approaches including work on foundationalism the coherence theory of justification internalism and externalism social epistemology the role of intuitions in philosophical theorizing epistemic normativity and the ways in which philosophical theories may be informed by empirical considerations On What It Is Nenad Miscevic, Thomas J. Matthew Haug, 2013-07-31 What methodology should philosophers follow Should they rely on methods that can be conducted from the armchair Or should they leave the armchair and turn to the methods of the natural sciences such as experiments in the laboratory Or is this opposition itself a false one Arguments about philosophical methodology are raging in the wake of a number of often conflicting currents such as the growth of experimental philosophy the resurgence of interest in metaphysical questions and the use of formal methods This outstanding collection of specially commissioned chapters by leading international philosophers discusses these questions and many more It provides a comprehensive survey of philosophical methodology in the most important philosophical subjects metaphysics epistemology philosophy of language philosophy of mind phenomenology philosophy of science ethics and aesthetics A key feature of the collection is that philosophers discuss and evaluate contrasting approaches in each subject offering a superb overview of the variety of methodological approaches both naturalistic and non naturalistic in each of these areas They examine important topics at the heart of methodological argument including the role of intuitions and conceptual analysis thought experiments introspection and the place that results from the natural sciences should have in philosophical theorizing The collection begins with a fascinating exchange about philosophical naturalism between Timothy Williamson and Alexander Rosenberg and also includes contributions from the following philosophers Lynne Rudder Baker Matt Bedke Greg Currie Michael Devitt Matthew C Haug Jenann Ismael Hilary Kornblith Neil Levy E J Lowe Kirk Ludwig Marie McGinn David Papineau Matthew Ratcliffe Georges Rey Jeffrey W Roland Barry C Smith Amie L Thomasson Valerie Tiberius Jessica Wilson and David W Smith Being as Communion

William A. Beckwith, 2015-11-12 *Taking Rites Seriously* is about how religious beliefs and religious believers are assessed by judges and legal scholars and are sometimes mischaracterized and misunderstood by those who are critical of the influence of religion in politics or in the formation of law Covering three general topics reason and motive dignity and personhood nature and sex philosopher and legal theorist Francis J Beckwith carefully addresses several contentious legal and cultural questions over which religious and non religious citizens often disagree the rationality of religious belief religiously motivated legislation human dignity in bioethics abortion and embryonic stem cell research reproductive rights and religious liberty evolutionary theory and the nature of marriage In the process he responds to some well known critics of public faith including Brian Leiter Steven Pinker Suzanna Sherry Ronald Dworkin John Rawls and Richard Dawkins as well as to some religiously conservative critics of secularism such as the advocates for intelligent design
