

INTRODUCTION TO LEGAL SCIENCE

PHILOSOPHY OF LAW

Philosophy is a way of thinking that tends to be reflective and law in this case tends to be interpreted as a rule in human life. The term philosophy of law is a translation of the word philosophy of law according to Mochtar Kusumaatmadja, namely translating philosophy of law as the equivalent of the word philosophy of law rather than legal philosophy. with legal philosophy. This is based on the argument that law is not just statutes and law is not official matters.

According to Plato, philosophy is the science or teaching of reality or eternal reality while legal philosophy is the science or teaching of legal reality. Likewise with the opinion of Aristotle who said that philosophy is the science or teaching of truth by covering metaphysics, logic, rhetoric, ethics, economics, politics and aesthetics. Philosophy in the sense of Aristotle is also comprehensive and involves many connections with other branches of philosophy. According to Poedjawijatna, philosophy is the science of everything that investigates the deepest explanations or causes.

William Zevenbergen stated that philosophy of law is the philosophy imposed or applied to law. In other words, legal philosophy is a characteristic of thinking. Philosophy is applied to law, meaning that the legal process is a special philosophy, meaning that it is part of general philosophy. Gustav Radbruch defines legal philosophy as meaning three aspects, namely:

1. Aspects of justice, in the form of equal rights for all people before the court.
