Nature God And Humanity Envisioning An Ethics Of Nature:

Nature, God and Humanity Richard L. Fern, 2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good

Water Resources and Inter-Riparian Relations in the Nile Basin Okbazghi Yohannes, 2009-01-01 Human demand for water resources is rising at an alarming rate in response to rapid population growth rival development requirements and the depletion of ecological resources In this book Okbazghi Yohannes examines the various facets of the competition for water resources among the ten Nile River Basin countries as they compete to harness the river s resources

for purposes of irrigation based agriculture and hydropower based industrialization Through a careful investigation of the rival states strategies to capture greater shares of water resources Yohannes assesses the lasting impact on the watershed ecology in the basin and on the hydrological demand of the river itself He proposes the formation of a radically different water regime to address the looming demographic crisis the stark regional food insecurity and the region s collapsing hydro ecology This book shows how the effort to construct a regional water regime cannot be separated from the necessity to construct an ecologically sustainable internal water regime in each co basin state particularly in terms of ecological resources conservation and ecosystem services protection

Spirit and Nature Timothy Hessel-Robinson, Ray Maria McNamara, 2011-08-01 Spirit and Nature is a collection of essays exploring how the resources of Christian spirituality can inform the practice of a more ecologically sustainable faith Our current ecological situation calls for people of religious faith to reexamine the way they envision the practice of spirituality As environmental ethicists have called us to reconsider the human Earth relationship so that the planet is not seen as simply an endless supply of resources to fill human wants and needs so these essays call us to reconsider spiritual practice as it relates to Earth s ecology Rather than viewing spirituality as an escape from the material world the authors describe the embodiment of the God quest within the human nature relationship Drawing on diverse disciplinary perspectives these essays examine a variety of topics including the relationship between Earth and humans in the Bible the role of nature s beauty in Christian spirituality the practice of Christian discernment and contemplation in light of the natural sciences the role of nature in liturgical prayer and others These essays consider how scholarship in Christian spirituality can contribute to re imaging faith in ways that better cherish the Earth s fragile beauty

Gods That Fail, Revised Edition Vinoth Ramachandra, 2016-02-12 The globalizing world of late modernity is heavily awash with pseudo gods Gods That Fail provocatively deploys the theological concept of idolatry to explore the ways in which these gods blind their devotees and wreak suffering and dehumanization Many of these pseudo gods have infiltrated the life of the Church and compromised its witness Combining lively social critique with fresh expositions of familiar biblical stories this book engages with a variety of secular discourses as well as the sub-Christian practices that accompany and undermine Christian involvement in the public square

Introducing Christian Ethics 2e now thoroughly revised and updated offers an unparalleled introduction to the study of Christian Ethics mapping and exploring all the major ethical approaches and offering thoughtful insights into the complex moral challenges facing people today This highly successful text has been thoughtfully updated based on considerable feedback to include increased material on Catholic perspectives further case studies and the augmented use of introductions and summaries Uniquely redefines the field of Christian ethics along three strands universal ethics for anyone subversive ethics for the excluded and ecclesial ethics for the church Encompasses Christian ethics in its entirety offering students a substantial overview by re mapping the field and exploring the differences in various ethical approaches Provides a successful balance between description analysis and critique Structured so that it can be used alongside a companion volume *Christian Ethics An Introductory Reader* which further illustrates and amplifies the diversity of material and arguments explored here *Performing the Faith* Stanley Hauerwas, 2015-03-11 Folksy eclectic disarmingly humble and astonishingly wide ranging Hauerwas offers us a provocative reading of Bonhoeffer that not surprisingly assimilates him closely to John Howard Yoder At the same time Hauerwas replies to recent criticisms of his work by Jeffrey Stout Contending that truth depends on performance far more than on theory Hauerwas steps forward as a pacifist gadfly for a more truly faithful church and a more recognizably democratic society George Hunsinger Princeton Theological Seminary This book shows how lively and fecund Hauerwas's thought remains A dazzling performance capable of entertaining and instructing professional theologians as much as those who think the world might be a better place without theologians in it Paul J Griffiths University of Illinois at Chicago Stan Hauerwas has done it again He is able skillfully to blend into his book the passion for truth and justice of two of his greatest influences Dietrich Bonhoeffer and John Howard Yoder He takes these heroic advocates for peace into his own present day struggle for the soul of the American nation Hauerwas an admirable Christian pacifist himself dares Christians to be the Jesus people they claim to be and to follow Jesus into the gospel path of nonviolence Geoffrey B Kelly author of *Liberating Faith Bonhoeffer's Message for Today* Never totally predictable Always a fresh perspective And yet once again in these essays on narrative politics Bonhoeffer and the church we hear the engaging discerning and brilliant voice we have come to know as Stanley Hauerwas Mark Thiessen Nation Eastern Mennonite Seminary Contending with and learning from the witness of Dietrich Bonhoeffer whose life is often thought to provide a Christian alternative to pacifism Hauerwas deepens the account of Christian nonviolence he has been articulating for decades His theology is strengthened and clarified by his encounter with the exemplary figure of Bonhoeffer Alan Jacobs Wheaton College Without loss of the

provocative edge that has made him a vital and distinctive Christian voice Hauerwas's *Performing the Faith* allows him to cast a retrospective eye on his work At the same time in a brilliant essay under the title of the book he develops a profoundly important description of faithfulness Dennis O'Brien, University of Rochester Stanley Hauerwas is the Gilbert T. Rowe Professor Emeritus of Theological Ethics at Duke Divinity School, Duke University [Biodiversity Conservation Ethics in Major Religions](#) H. S. A. Yahya, 2010-10-22 Covering three broader issues: biodiversity, conservation, religious doctrine and environment, the book *Biodiversity Conservation Ethics in Major Religions* is the result of a unique approach. It attempts to initiate scientific discourse through the fabric of religions. Spread across 15 chapters, the book covers the essence of 10 religions on biodiversity, encompassing a wide range of issues related to conservation. The book promises to be a useful resource for biodiversity students, researchers, and protected area managers, and also for religious scholars who are invited to look at the broader themes of religions beyond theology **Immanent Transcendence** Patrice Haynes, 2012-08-23 Over the last twenty years, materialist thinkers in the continental tradition have increasingly emphasized the category of immanence. Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence, but rather its reconfiguration in immanent or materialist terms: an immanent transcendence. Through an engagement with the work of Deleuze, Irigaray, and Adorno, Patrice Haynes examines how the notion of immanent transcendence can help articulate a non-reductive materialism by which to rethink politics, ethics, and theology in exciting new ways. However, she argues that, contrary to what some might expect, immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude. Indeed, Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence, thus pointing towards the idea of a theological materialism [Principles and Practice of Fertility Preservation](#) Jacques Donnez, S. Samuel Kim, 2011-02-03 The specialty of fertility preservation offers patients with cancer who are rendered infertile by chemo and radiotherapy the opportunity to realize their reproductive potential. This gold standard publication defines the specialty. The full range of techniques and scientific concepts is covered in detail, and the author team includes many of the world's leading experts in the field. The book opens with introductions to fertility preservation in both cancer and non-cancer patients, followed by cancer biology, epidemiology, and treatment, and reproductive biology and cryobiology. Subsequent sections cover fertility preservation strategies in males and females, including medical, surgical procedures, ART, cryopreservation, and transplantation of both ovarian tissue and the whole ovary, and in vitro follicle growth and maturation. Concluding chapters address future technologies as well as ethical, legal, and religious issues. Richly illustrated throughout, this is a key resource for all clinicians specializing in reproductive medicine: gynecology, oncology, hematology, endocrinology, and infertility *The Paradise of God* Norman Wirzba, 2003-09-11 In this work, Norman Wirzba argues that the doctrine of creation as presented in the Bible and as developed through the centuries actually holds the key to a true understanding of our place in the environment and our responsibility towards it.
