**Hendrik Roelof Rookmaaker**

## Nature Of Midnight:

*Towards a Romantic Conception of Nature* Hendrik Roelof Rookmaaker, 1984-01-01 This study describes in detail the development of Coleridge's attitude to nature as it is reflected in his poetry. It analyses the different stages of Coleridge's search for a meaningful relation to nature from an uncritical adoption of the eighteenth century conventions in his early poetry to a projectionist view in his poems of 1802. It offers challenging new readings of some of Coleridge's major poems like *The Ancient Mariner* and *Dejection: an Ode* and tries to rehabilitate some minor ones like *The Picture*. Attention is also paid to his relation with Wordsworth. It discusses in detail the philosophical background of Coleridge's views and considers the contribution of German thought to his development. As a whole this study affords a new insight into the genesis of romanticism in England.
