Geological Survey Professional Paper ,1969 *Location of a Lunar Base* John W. Salisbury,Charles F. Campen (Jr.),1961 *Surveyor Program Results* Surveyor Program (U.S.),1969 Summary of lunar data and scientific observations generated by Surveyor landings on Moon *Who Owns the Moon?* Virgiliu Pop,2008-11-16 This work investigates the permissibility and viability of property rights on the celestial bodies particularly the extraterrestrial aspects of land and mineral resources ownership In lay terms it aims to find an answer to the question Who owns the Moon The first chapter critically analyses and dismantles with legal arguments the issue of sale of extraterrestrial real estate after having perused some of the trivial claims of celestial bodies ownership The only consequence these claims have on the plane of space law is to highlight the need for a better regulation of extraterrestrial landed property rights Next the book addresses the apparent silence of the law in the field of extraterrestrial landed property scrutinizing whether the factual situation on the extraterrestrial realms calls for legal regulations The sources of law are examined in their dual dimension that is the facts that have caused and shaped the law of extraterrestrial real estate and the norms which express this law It is found that the norms and rules regarding property rights in the celestial realms are rather limited failing to define basic concepts such as celestial body
