Nature Of The Self:

The Nature of the Self Francis John Mott, 1959 *Nature of the Self* S. K. Leung, 2000 Proposes a radical theory on the existential confirmation and understanding of the Self Nature's Self Robert S. Corrington, 1996 The drama of the unfolding of the spirit Corrington argues is one of the most powerful struggles within the human process The spirit is in and of nature and can never lift the self outside of nature For Corrington's ecstatic naturalism there is no realm of the supernatural only dimensions and orders within nature Nature's Primal Self Nam T. Nguyen, 2011-12-28 Nature's Primal Self examines Corrington's thought called ecstatic naturalism in juxtaposition to both C. S. Peirce's pragmatic and semiotic concept of the self and Karl Jaspers' existential elucidation of Existenz Peirce's and Jaspers' anthropocentrism is thus corrected by Corrington's ecstatic naturalism Ecstatic naturalism as a new movement is both a semiotic theoretical method and a metaphysics that probes deeply into the ontological divide between nature naturing and nature natured Author Nam T. Nguyen attempts to achieve three goals first to present and elucidate the underlying philosophical concepts of Charles Peirce Karl Jaspers and Robert Corrington second to critique the anthropocentric self of Peirce's semiotic pragmatism and of Jaspers' existential anthropology periechontology from the standpoint of ecstatic naturalism and third to introduce the concept of nature's primal self radically grounded in the perspective of ecstatic naturalism as a judicious more encompassing and richer framework compared to Peirce's semiotic construction of the self and Jaspers' existential concept of Existenz

Dao Companion to Chinese Buddhist Philosophy Youru Wang,Sandra A. Wawrytko,2019-01-31 Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on

its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy
