Natures Cruel Stepdames:

The Anti-Christ's Lewd Hat Distinguished University Professor of Early Modern English History Peter Lake, Peter Lake, Michael C. Questier, 2002-01-01 In this extraordinary and ambitious book Peter Lake examines how different sections of sixteenth and early seventeenth century England protestant puritan and catholic the press and the popular stage sought to enlist these pamphlets to their own ideological and commercial purposes *Women, Murder, and Equity in Early Modern England* Randall Martin, 2007-12-12 This book presents the first comprehensive study of over 120 printed news reports of murders and infanticides committed by early modern women It offers an interdisciplinary analysis of female homicide in post Reformation news formats ranging from ballads to newspapers Individual cases are illuminated in relation to changing legal religious and political contexts as well as the dynamic growth of commercial crime news and readership Monstrous Motherhood Marilyn Francus, 2013-01-01 Spectral and monstrous mothers populate the cultural and literary landscape of the eighteenth century overturning scholarly assumptions about this being an era of ideal motherhood Although credited with the rise of domesticity eighteenth century British culture singularly lacked narratives of good mothers ostensibly the most domestic of females With startling frequency the best mother was absent disembodied voiceless or dead British culture told tales almost exclusively of wicked surrogate or spectral mothers revealing the defects of domestic ideology the cultural fascination with standards and deviance and the desire to police maternal behaviors Monstrous Motherhood analyzes eighteenth century motherhood in light of the inconsistencies among domestic ideology narrative and historical practice If domesticity was so important why is the good mother's story absent or peripheral What do the available maternal narratives suggest about domestic ideology and the expectations and enactment of motherhood By focusing on literary and historical mothers in novels plays poems diaries conduct manuals contemporary court cases realist fiction fairy tales satire and romance Marilyn Francus reclaims silenced maternal voices and perspectives She exposes the mechanisms of maternal marginalization and spectralization in eighteenth century culture and revises the domesticity thesis Monstrous Motherhood will compel scholars in eighteenth century studies women's studies family history and cultural studies to reevaluate a foundational assumption that has driven much of the discourse in their fields **Women and Death** Helen Fronius, Anna Linton, 2008 Identifies and analyzes thematizations of women and death from the past five centuries illuminating the present and recent past The theme of women and death is pervasive in the German culture of the past five centuries With the conviction that only an interdisciplinary approach can explore a typology as far reaching and significant as this and in accordance with the feminist tenet that images are accountable for norms this volume investigates how iconic representations of women and death came about and why they endure Traditionally representations of women as agents of death when they have been considered at all have been considered separately from women as victims as though there was no shared thematic ground Here familiar depictions of female victims are examined alongside the more unsettling spectacle of

women as killers exposing cultural assumptions Essays explore among others the themes of virgin sacrifice and female infanticides Death and the Maiden in art female vampires in literature and women killers in the media Others compare cultural practices such as female mourning across historical contexts examining change and the reasons for it The authors judgments eschew the simplistic and programmatic contributing not just to current research in German literature but also to understanding of cultural history in general Contributors Stephanie Knoll Ruth Böttigheimer Anna Linton Bettina Bildhauer Mary Lindemann Helen Fronius Anna Richards Jürgen Barkhoff Lawrence Kramer Kathrin Hoffmann Curtius Clare Bielby Gisela Ecker Anna Linton is Lecturer in German at Kings College London and Helen Fronius is an AHRC Research Fellow and College Lecturer at Exeter College Oxford

Shakespeare's Domestic Tragedies Emma Whipday, 2019-01-03 Domestic tragedy was an innovative genre suggesting that the lives and sufferings of ordinary people were worthy of the dramatic scope of tragedy In this compelling study Whipday revises the narrative of Shakespeare's plays to show how this genre together with neglected pamphlets ballads and other forms of cheap print about domestic violence informed some of Shakespeare's greatest works Providing a significant reappraisal of Hamlet Othello and Macbeth the book argues that domesticity is central to these plays they stage

how societal and familial pressures shape individual agency how the integrity of the house is associated with the body of the housewife and how household transgressions render the home permeable Whipday demonstrates that Shakespeare not only appropriated constructions of the domestic from domestic tragedies but that he transformed the genre using heightened language foreign settings and elite spheres to stage familiar domestic worlds **News in Early Modern Europe** Simon Davies,Puck Fletcher,2014-07-07 News in Early Modern Europe presents new research on the nature production and dissemination of a variety of forms of news writing from across Europe during the early modern period [The Horror Plays of the English Restoration](#) Anne Hermanson,2016-03-09 A decade after the Restoration of Charles II a disturbing group of tragedies dubbed by modern critics the horror or the blood and torture villain tragedies burst onto the London stage Ten years later they were gone absorbed into the partisan frenzy which enveloped the theatre at the height of the Exclusion Crisis Despite burgeoning interest until now there has been no full investigation into why these deeply unsettling plays were written when they were and why they so fascinated audiences for the period that they held the stage The author s contention is that the genre of horror gains its popularity at times of social dislocation It reflects deep schisms in society and English society was profoundly unsettled and in a delayed state of shock from years of social upheaval and civil conflict Through recurrent images of monstrosity madness venereal disease incest and atheism Hermanson argues that the horror dramatists trope deep seated and unresolved anxieties engaging profoundly with contemporary discourse by abreacting the conspiratorial climate of suspicion and fear Some go as far as to question unequivocally the moral and political value of monarchy vilifying the office of kingship and pushing ideas of atheism further than in any drama produced since Seneca This study marks the first comprehensive investigation of these macabre tragedies in which playwrights such as Nathaniel Lee Thomas Shadwell Elkanah Settle Thomas Otway and the Earl of Rochester take their audience on an exploration of human iniquity thrusting them into an examination of man s relationship to God power justice and evil [The Common Touch](#) Adrian Roscoe,Paul A. Scanlon,2014-08-11 During the Elizabethan Age and for the following hundred and fifty years such figures as Shakespeare and Jonson Milton and Pope dominated the English literary scene But what was the vast majority of society really watching reading and singing This pioneering anthology set in two volumes attempts to answer this question by offering a wide selection of material ranging from broadside ballads and drolls to witch trial reports and political newsbooks

scholars in gender studies literature and the history of medicine

Poison's Dark Works in Renaissance England

Miranda Wilson, 2013-12-24 *Poison's Dark Works in Renaissance England* considers the ways sixteenth and seventeenth century fears of poisoning prompt new models for understanding the world even as the fictive qualities of poisoning frustrate attempts at certainty Whether English writers invoke literal poisons as they do in so many revenge dramas homicide cases and medical documents or whether poisoning appears more metaphorically as it does in a host of theological legal philosophical popular and literary works this particular invisible weapon easily comes to embody the darkest elements of a more general English appetite for imagining the hidden correlations between the seen and the unseen This book is an inherently interdisciplinary project This book works from the premise that accounts of poisons and their operations in Renaissance texts are neither incidental nor purely sensational rather they do moral political and religious work which can best be assessed when we consider poisoning as part of the texture of Renaissance culture Placing little known or less studied texts medical reports legal accounts or anonymous pamphlets alongside those most familiar to scholars and the larger public such as poetry by Edmund Spenser and plays by William Shakespeare and Thomas Middleton allows us to appreciate the almost gravitational pull exerted by the notion of poison in the Renaissance Considering a variety of texts written for disparate audiences and with diverse purposes makes apparent the ways this crime functions as both a local problem to be solved and as an apt metaphor for the complications of epistemology

A Weak Woman in a Strong Battle Jennifer Lillian Lodine-Chaffey,2022-08-30 The reception of women s speeches Jennifer Lodine Chaffey argues depended on their performances of accepted female behaviors and words as well as physical signs of interior regeneration Indeed when women presented themselves or were represented as behaving in stereotypically feminine and virtuous ways they were able to offer limited critiques of their fraught positions in society The first part of this study investigates the early modern execution including the behavioral expectations for condemned individuals the medieval tradition that shaped the ritual and the gender specific ways English authorities legislated and carried out women s executions Depictions of the female body are the focus of the second part of the book The executed woman s body Lodine Chaffey contends functioned as a text scrutinized by witnesses and readers for markers of innocence or guilt

Mothers Who Kill Charlotte Beyer,2022-01-10 This compelling and unique collection of critical and creative work assesses for the first time cultural

literary legal and historical representations and narratives about mothers who kill and filicide The idea of a mother killing her child to many presents the greatest taboo and the most disturbing and distressing aspect of maternal experience In Toni Morrison s 1987 novel *Beloved* escaped slave mother Sethe addresses her daughter Beloved whom she murdered out of desperation in order to avoid her returning to a life of slavery and sexual abuse Sethe reflects I ll explain to her even though I don t have to Why I did it How if I hadn t killed her she would have died and that is something I could not bear to happen to her When I explain it she ll understand This book goes beyond Morrison s widely known literary portrayal in order to investigate a range of other less known but no less challenging examinations of maternal filicide Have mothers who kill inevitably been portrayed as monsters in cultural representations Or are there certain contexts that may urge us to reevaluate maternal behavior And how might we counter the misogynist narratives surrounding maternal filicide which have governed literary and historical accounts and affected legal discourses This wide ranging and innovative volume examines the complex issues of infanticide and mothers who kill from a broad interdisciplinary perspective in order to counter the misogynist cultural narratives that underpin prevailing stereotypes of mothers The book includes creative work essays on crime fiction literature from across a range of historical periods multicultural and Global South perspectives legal and historical accounts and more Making an invaluable contribution to motherhood studies and gender criticism this book offers a rich insight into current and cutting edge research into this most troubling area of maternal representation

Death, Emotion and Childhood in Premodern Europe Katie Barclay, Kimberley Reynolds, Ciara Rawnsley, 2017-02-06 This book draws on original material and approaches from the developing fields of the history of emotions and childhood studies and brings together scholars from history literature and cultural studies to reappraise how the early modern world reacted to the deaths of children Child death was the great equaliser of the early modern period affecting people of all ages and conditions It is well recognised that the deaths of children struck at the heart of early modern families yet less known is the variety of ways that not only parents but siblings communities and even nations responded to childhood death The contributors to this volume ask what emotional responses to child death tell us about childhood and the place of children in society Placing children and their voices at the heart of this investigation they track how emotional norms values and practices shifted across the fifteenth

to nineteenth centuries through different religious legal and national traditions This collection demonstrates that child death was not just a family matter but integral to how communities and societies defined themselves Chapter 5 of this book is available open access under a CC BY 4.0 license at link.springer.com
