of evolutionary theory responded to a world in which new natures were coming into being while others disappeared For some of these writers colonial natural history held the promise of ushering in a cosmopolitan nature in which every species through trade and exchange might become a true citizen of the world Others struggled with the question of how to live after the natures they depended upon were gone Ultimately Natures in Translation demonstrates that far from being separate from the dominant concerns of British imperial culture nature was integrally bound up with the business of empire

Windshield Wilderness David Louter,2009-11-23 In his engaging book Windshield Wilderness David Louter explores the relationship between automobiles and national parks and how together they have shaped our ideas of wilderness National parks he argues did not develop as places set aside from the modern world but rather came to be known and appreciated through technological progress in the form of cars and roads leaving an enduring legacy of knowing nature through machines With a lively style and striking illustrations Louter traces the history of Washington State s national parks Mount Rainier Olympic and North Cascades to illustrate shifting ideas of wilderness as scenic as roadless and as ecological reserve He reminds us that we cannot understand national parks without recognizing that cars have been central to how people experience and interpret their meaning and especially how they perceive them as wild places Windshield Wilderness explores what few histories of national parks address what it means to view parks from the road and through a windshield Building upon recent interpretations of wilderness as a cultural construct rather than as a pure state of nature the story of autos in parks presents the preservation of wilderness as a dynamic and nuanced process Windshield Wilderness illuminates the difficulty of separating human modified landscapes from natural ones encouraging us to recognize our connections with nature in national parks
