The Soul's Code James Hillman, 2017-08-01 An acute and powerful vision offers a renaissance of humane values Thomas Moore author of Care of the Soul and The Re Enchantment of Everyday Life Plato called it daimon the Romans genius the Christians guardian angel today we use such terms as heart spirit and soul While philosophers and psychologists from Plato to Jung have studied and debated the fundamental essence of our individuality our modern culture refuses to accept that a unique soul guides each of us from birth shaping the course of our lives In this extraordinary bestseller James Hillman presents a brilliant vision of our selves and an exciting approach to the mystery at the center of every life that asks What is it in my heart that I must do be and have And why Drawing on the biographies of figures such as Ella Fitzgerald and Mohandas K Gandhi Hillman argues that character is fate that there is more to each individual than can be explained by genetics and environment The result is a reasoned and powerful road map to understanding our true nature and discovering an eye opening array of choices from the way we raise our children to our career paths to our social and personal commitments to achieving excellence in our time Praise for The Soul s Code Champions a glorious sort of rugged individualism that with the help of an inner daimon or guardian angel can triumph against all odds The Washington Post Book World A brilliant absorbing work Hillman dares us to believe that we are each meant to be here that we are needed by the world around us Publishers Weekly

Il codice dell'anima James Hillman, 2014-12-17 T00:00:00+01:00 Esiste qualcosa in ciascuno di noi che ci induce a essere in un certo modo a fare certe scelte a prendere certe vie anche se talvolta simili passaggi possono sembrare casuali o irragionevoli. Se esiste il daimon il demone che ciascuno di noi riceve come compagno prima della nascita secondo il mito di Er raccontato da Platone. Se esiste ci che si nasconde dietro parole come vocazione chiamata carattere. Se esiste la chiave per leggere il codice dell'anima quella sorta di linguaggio cifrato che ci spinge ad agire ma che non sempre capiamo. Dopo anni di indagini sulla psiche che hanno fatto di lui l'autore di saggi memorabili come *Il mito dell'analisi* e *Revisione della psicologia* James Hillman ha voluto darci con questo libro le prove circostanziate dell'esistenza e dei modi di operare del daimon. E ha scelto una via inusuale ed efficacissima quella cioè di impiegare come esempi non oscuri casi clinici ma il destino di personaggi che ogni lettore conosce da Judy Garland a John Lennon e Tina Turner da Truman Capote a Quentin Tarantino e Woody Allen da Hannah Arendt a Richard Nixon e Henry Kissinger da Hitler ai serial killer. Attraverso questa profusione di storie eloquenti e paradigmatiche Hillman riuscito a farci capire che se la psicologia si dimostrata incapace di spiegare le scelte più profonde che decidono la vita di tutti noi proprio perché aveva perso contatto con il daimon. E soprattutto a farci sentire di nuovo la presenza di questo compagno segreto dal quale più che da ogni altro elemento la nostra vita dipende. Il codice dell'anima apparso per la prima volta nel 1996.
