Cargoes in Motion Burkhard Schnepel,Julia Verne,2022-02-08 An innovative collection of essays that foregrounds specific cargoes as a means to understand connectivity and mobility across the Indian Ocean world Scholars have long appreciated the centrality of trade and commerce in understanding the connectivity and mobility that underpin human experience in the Indian Ocean region But studies of merchant and commercial activities have paid little attention to the role that cargoes have played in connecting the disparate parts of this vast oceanic world Drawing from the work of anthropologists geographers and historians *Cargoes in Motion* tells the story of how material objects have informed and continue to shape processes of exchange across the Indian Ocean By following selected cargoes through both space and time this book makes an important and innovative contribution to Indian Ocean studies The multidisciplinary approach deepens our understanding of the nature and dynamics of the Indian Ocean world by showing how transoceanic connectivity has been driven not only by economic social cultural and political factors but also by the materiality of the objects themselves Essays by Edward A Alpers Fahad Ahmad Bishara Eva Maria Knoll Karl Heinz Kohl Lisa Jenny Krieg Pedro Machado Rupert Neuh fer Mareike Pampus Hannah Pilgrim Burkhard Schnepel Hanne Sch nig Tansen Sen Steven Serels Julia Verne Kunbing Xiao **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff,R R Bowker Publishing,1996-09 **Nature London** ,1874 *The American Bookseller's Complete Reference Trade List, and Alphabetical Catalogue of Books in this Country* Alexander Vietts Blake,1847 **Evangelical Magazine** Anonymous,2025-07-28 Reprint of the original first published in 1837 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage The English Catalogue of Books [annual] ,1892 Vols for 1898 1968 include a directory of publishers **Publishers' circular and booksellers' record** ,1896 *Nature Magazine* ,1925 An illustrated monthly with popular articles about nature **Catalogue of Printed Books in the Library of the British Museum** British Museum. Ward,2014-07-15

Growth of interest in the periodical literature of the past has emphasized increasingly the need for specialized hand lists a need which the American Union List of Serials the British Union Catalogue of the Periodical Publications in the University Libraries of the British Isles and other existing indexes cannot answer To satisfy one area of this need William S Ward has compiled a near definitive index and finding list of periodicals and newspapers of the English Romantic period In it are

reflected the holdings of almost eleven hundred American Canadian and British libraries and newspaper offices The volume is also the first to list titles and library locations of all the newspapers magazines and other serials published in the British Isles during the years between the French Revolution and the Great Reform Bill **Devices of Curiosity** Oliver Gaycken,2015-05-01 Devices of Curiosity excavates a largely unknown genre of early cinema the popular science film Primarily a work of cinema history it also draws on the insights of the history of science Beginning around 1903 a variety of producers made films about scientific topics for general audiences inspired by a vision of cinema as an educational medium This book traces the development of popular science films over the first half of the silent era from its beginnings in England to its flourishing in France around 1910 Devices of Curiosity also considers how popular science films exemplify the circulation of knowledge These films initially relied upon previous traditions such as the magic lantern lecture for their representational strategies and they continually had recourse to established visual iconography but they also created novel visual paradigms and led to the creation of ambitious new film collections Finally the book discerns a transit between nonfictional and fictional modes seeing affinities between popular science films and certain aspects of fiction films particularly Louis Feuillade s crime melodramas This kind of circulation is important for an understanding of the wider relevance of early popular science films which impacted the formation of the documentary educational and avant garde cinemas *The Literary churchman* ,1880 **Current Catalog** National Library of Medicine (U.S.),1968 Includes subject section name section and 1968 1970 technical reports **The Athenaeum** ,1876 **Young Oologist** ,1889
