McCaffrey,2009-04-22 This is the story of the Spanish American War told not from the perspective of generals policy makers or politicians but from that of the soldiers sailors and marines in the field and the reporters who covered their efforts Concentration on the daily lives of these people provides insight into the often overlooked facets of a soldier s life detailing their training and interaction with weaponry their food clothing and medical supplies and their personal interactions and daily struggles While the Spanish American War set the stage for America s emergence as a global power this is its history on an individual scale as seen through the eyes of those upon whom the war had the most immediate impact *Journal of Glass Studies* ,1999 The CSS Arkansas Myron J. Smith, Jr.,2014-01-10 While the Monitor and Merrimack are the most famous of the Civil War ironclads the Confederacy had another ship in its flotilla that carried high hopes and a metal hull The makeshift CSS Arkansas completed by Lt Isaac Newton Brown and manned by a mixed crew of volunteers gave the South a surge of confidence when it launched in 1862 For 28 days of summer the ship engaged in five battles with Union warships falling victim in the end only to her own primitive engines The saga of the CSS Arkansas represents the last significant Rebel naval activity in the war s Western theater **Scientific and Technical Aerospace Reports** ,1985 **Monthly Catalog of United States Government Publications** , *Military Review* ,1996 **Professional Journal of the United States Army** ,1996

Cartographies of Travel and Navigation James R. Akerman,2010-11-15 Finding one s way with a map is a relatively recent phenomenon In premodern times maps were used if at all mainly for planning journeys in advance not for guiding travelers on the road With the exception of navigational sea charts the use of maps by travelers only became common in the modern era indeed in the last two hundred years maps have become the most ubiquitous and familiar genre of modern cartography Examining the historical relationship between travelers navigation and maps *Cartographies of Travel and Navigation* considers the cartographic response to the new modalities of modern travel brought about by technological and institutional developments in the twentieth century Highlighting the ways in which the travelers operators and planners of modern transportation systems value maps as both navigation tools and as representatives of a radical new mobility this collection brings the cartography of travel by road sea rail and air to the forefront placing maps at the center of the history of travel and movement Richly and colorfully illustrated *Cartographies of Travel and Navigation* ably fills the void in historical literature on transportation mapping **The Laird Rams** Andrew R. English,2021-10-01 Built in Birkenhead England from 1862 to 1865 the Laird rams were two innovative armored warships intended for service with the Confederate Navy during

the Civil War The vessels represented a substantial threat to Union naval power and offered the Confederacy a potential means to break the Union blockade of the Southern coastline During 1863 the critical year of the Confederacy's last hope of recognition by the British and French President Lincoln threatened war with Britain if the ships ever sailed under Confederate colors Built in some secrecy then launched on the River Mersey under intense international scrutiny the ships were first seized and then purchased by Britain to avoid a war with the United States These armored warships were largely forgotten after the Admiralty acquired them Historians rarely mention these sister warships if referred at all they are given short shrift This book provides the first complete history of these once famous ironclads that never fired a shot in anger yet served at distant stations as defenders of the British Empire *The Old War Horse* Myron J. Smith, Jr., 2024-02-26 With a unique prewar history as a snagboat and James B Eads noted catamaran salvage vessel the Benton survived a tumultuous government acquisition process and conversion to become flagship of the Union's Civil War Western river navy From Island No 10 through the Vicksburg and Red River campaigns the revolutionary ironclad participated in both combat and administrative activities earning a prominent place in nautical legend and literature This first book length profile of the warship reveals little known details of both her prewar and wartime career and reviews her final disposal
