The Elementary Structures of Kinship Claude Levi-Strauss, 2016-05-10 Professor L vi Strauss s first major work *Les Structures mentales de la Parenté* has acquired a classic reputation since its original publication in 1949 and it has become the constant focus of academic debate about central theoretical concerns in social anthropology It is however a long and difficult book for many students to read in French and its arguments have consequently become known even among professional anthropologists largely through critical analysis It was republished in a revised French edition in 1967 with a new foreword by the author and it is this text with his further emendations that has been used in this translation L vi Strauss applies his intellectual powers to the perennial problem of incest which he elucidates by means of the concept of exchange as formulated by Marcel Mauss in his famous analysis of the gift *Essai sur le don* 1925 He distinguishes two elementary modes of exchange which govern not only the conventional variety of goods and services but also the transfer of women in marriage these are restricted and generalized exchange With a mass of ethnographic evidence he demonstrates how the formidable intricacy of marriage customs comprising moral and jural ideas and institutions which appear to be essentially arbitrary can be seen as local and historical rules of exchange Charles L vi Strauss traces these rules throughout a vast range of simple societies chiefly in Australia and mainland Southeast Asia but also in the Americas in Oceania and in other parts of the world To this survey he adds two extended sections on the great civilizations of China and India He continues with a briefer consideration of the passage from elementary to complex structures with particular reference to African societies and concludes with a stimulating chapter on the principles of kinship exchange as the universal basis for marriage prohibitions and the formal relations between the sexes as part of a universe of communication Although much of the work is technical consisting of detailed analyses of types of social organization with which social anthropologists will be most familiar it also contains much that will be of interest to psychologists linguists and philosophers and to all who are interested in the possibility and the technique of the structural analysis of human activity After the successes moreover of L vi Strauss s subsequent books notably *Structural Anthropology* *Tristes Tropiques* *Totemism* and *The Savage Mind* this new edition of the work which founded his present outstanding reputation will have additional value as a further means of contact with one of the original minds of this century The translation has been made by James Harle Bell and John Richard von Sturmer of the University of New England Australia and by Rodney Needham of the University of Oxford Dr Needham also acted as general editor and supplied the work with a new general index He is the translator of L vi Strauss s *Le Totémisme aujourd hui* and author of *Structure and Sentiment* 1962 and numerous papers which have contributed to the recognition of Professor L vi Strauss s work in the English speaking world

Native American Literature Helen May Dennis, 2006-11-22 Native American Literature underwent a Renaissance around 1968 and the current canon of novels written in the late twentieth century in American English by Native American or mixed blood authors is diverse, exciting and flourishing. Despite this very few such novels are accepted as part of the broader American literary canon. This book offers a valuable and original approach to contemporary Native American literature. Dennis's contemplation of space and spatialized aesthetics is compelling and persuasive. Considering Native American literature within a modernist framework and comparing it with writers such as Woolf, Stein, T. S. Eliot and Proust results in a valuable and enriching context for the selected texts. Vital reading for scholars of Native American Literature, this book will also provide good grounding in the subject for those with an interest in American and twentieth century literature more generally.

The Taking and Displaying of Human Body Parts as Trophies by Amerindians Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America. The editors and contributors, which include Native Peoples from both continents, examine the evidence and causes of Amerindian trophy taking. Additionally, they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence. This book fills the gap in literature on this subject.

Intimate Grammars Anthony K. Webster, 2016-05-01 On April 24, 2013, Luci Tapahonso became the first poet laureate of the Navajo Nation, possibly the first Native American community to create such a post. The establishment of this position testifies to the importance of Navajo poets and poetry to the Navajo Nation. It also indicates the Navajo equivalence to the poetic traditions connected with the U.S. poet laureate and the poet laureate of the United Kingdom. Author Anthony K. Webster asserts, as well as its separateness from those traditions. *Intimate Grammars* takes an ethnographic and ethnopoetic approach to language and culture in contemporary time in which poetry and poets are increasingly important and visible in the Navajo Nation. Webster uses interviews and linguistic analysis to understand the kinds of social work that Navajo poets engage in through their poetry. Based on more than a decade of ethnographic and linguistic research, Webster's book explores a variety of topics: the emotional value assigned to various languages spoken on the Navajo Nation through poetry; Navajo English; Navlish; Navajo and English; why Navajo poets write about the ugliness of the Navajo Nation; and the way contemporary Navajo poetry connects young Navajos to the Navajo language. Webster also discusses how contemporary Navajo poetry challenges the creeping standardization of written Navajo and how boarding school experiences influence how Navajo poets write poetry.

and how Navajo readers appreciate contemporary Navajo poetry Through the work of poets such as Luci Tapahonso Laura Tohe Rex Lee Jim Gloria Emerson Blackhorse Mitchell Esther Belin Sherwin Bitsui and many others Webster provides new ways of thinking about contemporary Navajo poets and poetry Intimate Grammars offers an exciting new ethnography of speaking ethnopoetics and discourse centered examinations of language and culture Homelands Richard L. Nostrand, Lawrence E. Estaville, 2003-05-01 What does it mean to be from somewhere If most people in the United States are from some place else what is an American homeland In answering these questions the contributors to Homelands A Geography of Culture and Place across America offer a geographical vision of territory and the formation of discrete communities in the U S today Homelands discusses groups such as the Yankees in New England Old Order Amish in Ohio African Americans in the plantation South Navajos in the Southwest Russians in California and several other peoples and places Homelands explores the connection of people and place by showing how aspects of several different North American groups found their niche and created a homeland A collection of fifteen essays Homelands is an innovative look at geographical concepts in community settings It is also an exploration of the academic work taking place about homelands and their people of how factors such as culture settlement and cartographic concepts come together in American sociology There is much not only to study but also to celebrate about American homelands As the editors state Underlying today s pluralistic society are homelands large and small strong and weak that endure in some way The mosaic of homelands to which people bonded in greater or lesser degrees affirms in a holistic way America s diversity its pluralistic society The authors depict the cultural effects of immigrant settlement The conviction that people need to participate in the life of the homeland to achieve their own self realization within the traditions and comforts of that community Homelands gives us a new map of the United States a map drawn with people s lives and the land that is their home **Demon Possession** John Warwick Montgomery, 2018-01-26 In January of 1975 the Christian Medical Association gathered to deliver papers on the subject of demon possession The essayists are Christians affiliated with a variety of academic institutions The essays themselves explore the phenomena of the demonic in the Bible in literature on the mission field in anthropology legal history and psychiatric treatment All of the participants accept the reality of the demonic but they are circumspect in their scholarship If you are looking for a more substantial treatment than what you might find in popular booklets on the subject or on the fiction aisle this is it never before or since this symposium has there been a focused study of this magnitude on demon possession **Life among the Anthros and Other Essays** Clifford Geertz, 2012-08-26 An incomparable retrospective of writings by one of the world s great anthropologists Clifford Geertz 1926 2006 was perhaps the most influential anthropologist of our time but his influence extended far beyond his field to encompass all facets of contemporary life Nowhere were his gifts for directness humor and steady revelation more evident than in the pages of the New York Review of Books where for nearly four decades he shared his acute vision of the world in all its peculiarity This book brings together

the finest of Geertz's review essays from the New York Review along with a representative selection of later pieces written at the height of his powers some that first appeared in periodicals such as Dissent others never before published This collection exemplifies Geertz's extraordinary range of concerns beginning with his first essay for the Review in 1967 in which he reviews with muffled hilarity the anthropologist Bronislaw Malinowski This book includes Geertz's unflinching meditations on Western academia's encounters with the non Western world and on the shifting and clashing places of societies in the world generally Geertz writes eloquently and arrestingly about such major figures as Gandhi Foucault and Genet and on topics as varied as Islam globalization feminism and the failings of nationalism Life among the Anthros and Other Essays demonstrates Geertz's uncommon wisdom and consistently keen and hopeful humor confirming his status as one of our most important and enduring public intellectuals
