National Park Service, 2003 This General Management Plan Summary provides the highlights of the Navajo National Monument Final General Management Plan Environmental Impact Statement. The plan is intended to provide a foundation to help park managers guide programs and set priorities for resource stewardship, visitor understanding, partnerships, facilities, and operations. The plan will guide management of the monument for the next 1520 years *Navajo National Monument, Arizona* United States. National Park Service, 2003 Navajo National Monument Hal Rothman, 1991 Navajo National Monument United States. National Park Service, 2003 Navajo National Monument, a Place and Its People Hal K. Rothman, 2018-10-05 Excerpt from Navajo National Monument a Place and Its People An Administrative History Located in northeastern Arizona Navajo National Monument is anomalous among national park areas. The monument contains three distinct and non-contiguous sections administered from one headquarters. The three sections of the monument Betatakin, Keet See, and Inscription House are surrounded by the Navajo reservation. Dating from the 13th century C.E., they contain the primary representation of the Kayenta Anasazi within the national park system. Yet because of their location and the distance between the three areas Navajo National Monument is an inholding on the Navajo reservation. This condition has created a level of interdependence unequalled elsewhere in the national park system. The monument and its neighbors depend on each other for mutual sustenance. The park provides a range of services not otherwise available as well as significant employment opportunities to the people of the Shonto region. Through a complex series of formal agreements and customs, local Navajos support the park and participate in its activities. Like many other smaller southwestern national monuments Navajo developed slowly. At its inception the Park Service had few resources, most of which were used to improve national parks. Navajo National Monument had only a volunteer custodian from its establishment in 1909 until 1938. New Deal development bypassed the monument and despite the construction of basic facilities at the end of the 1950s Navajo remained a remote place inaccessible to most of the traveling public. The initiation of the Mission 66 program in the 1950s and an extensive road construction program by the Navajo Nation ended the historic isolation of the monument. Mission 66 planned an extensive development for Navajo, but the plans were held in abeyance until an adequate area of land on which to build a visitor center could be acquired. A complicated series of attempts to arrange a transfer of land followed, resulting in the Memorandum of Agreement of May 1962. This allowed the Park Service to add 240 acres for development of facilities. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
