Re-examining the Holocaust through Literature Aukje Kluge, Benn E. Williams, 2009-03-26 In the late 1980s Holocaust literature emerged as a provocative but poorly defined scholarly field The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books fiction film and poetry as well as the more traditional diaries memoirs and journals Ten contributors from four countries engage issues of authenticity evangelicalism morality representation personal experience and wish fulfillment in Holocaust literature which have been the subject of controversies in the US Europe and the Middle East Of interest to students and instructors of antisemitism national and comparative literatures theater film history literary criticism religion and Holocaust studies this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context

Security Implications Of Nationalism In Eastern Europe Jeffrey Simon, Trond Gilberg, 2019-06-26 Suggesting that events in Poland during 1980 1981 represent the tip of an iceberg the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security They analyze developing problems and trends in the region including the cooling of relations between the USSR and individual countries in Eastern Europe the continuing economic crisis changing social structures the influence of the intelligentsia and the eroding importance of ideology as a key part of Eastern Europe's political culture The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact
