Fighting Boats for a Fighting Navy: The World War II PT Boats in contemporary advertisements: Black & White Collection Patrick Matthews, 2012-01-16
PT boats captured the imagination of the American public during WW2. From the darkest days of 1941 and 1942, the PTs were bravely slugging it out with the overwhelming Japanese invasion forces. PTs extracted MacArthur from Manila, and when he returned, it was on a PT. The PTs were nimble and quick and packed a wallop. They were Davids to the Axis Goliaths. And the crews, what young man wouldn't want to be a dashing PT sailor? This collection of WW2 ads follows the PTs and their crews from those dark early days to the final victory and the promise of carefree yachting in the ensuing peace. Over 200 wartime PT ads are crammed into this affordable Black & White Collection. Also look for the companion volume *Fighting Boats for a Fighting Navy Supplemental Color Edition*, which contains a selection of the most colorful ads from this larger B & W edition.

The Boat that Won the War Charles C. Roberts, Jr., 2017-07-30

This is an excellent examination of one of the most important Allied naval weapons of the Second World War. HistoryOfWar.org The Landing Craft Vehicle Personnel (LCVP) for short or simply the Higgins boat to most of its users was one of the keystones of victory in the Second World War. Like the army's Jeep or the Air Force's C-47 transport, it served in almost every theatre of war, performing unglamorous but vital service in the Allied cause. Derived from a humble workboat, the Higgins boatbuilding company designed a brilliantly simple craft that performed its role so well that over 23,000 of them were constructed. Indeed, a high proportion of all the troops landed on enemy beaches came ashore from LCVPs, an achievement that led General Eisenhower to describe it as the boat that won the war. As Eisenhower had more experience of major amphibious operations than any other commander, it is a judgment to be taken seriously. This book combines the first in-depth history of the development and employment of the type with a detailed description of its construction, machinery, performance, and handling based on the author's first-hand experience masterminding the restoration of a wartime example for his museum. Well illustrated with plans and photographs, it will be of interest to modelmakers and enthusiasts, both military and naval. An invaluable record for military historians and the designers, builders, and operators of the successor boats. The photographs and drawings of every imaginable aspect of the LCVPs are beyond price. A magnificent contribution to both naval history and the future planning of amphibious operations. Ausmarine
