*Right on the Numbers* Nino Frostino, 2004 The basic subject of the book is to justify which athlete was the Greatest to ever wear a particular number In my research I listed all of the possible uniform numbers 0 to 99 took the finest athletes from the four major sports baseball basketball football and hockey and slotted them under their appropriate uniform number For each player I created a mini biography detailing their finest exploits on the field

whether it was All Star nods championships won records held on field highlights etc Basically I created a case for that athlete to be considered the best to ever wear the number Among the possible uniform numbers I've listed nearly 850 athletes for consideration and provided the accompanying biography At the end of each section I form a debate as to the Greatest to ever wear the number and then make a selection After the selection is posted I then list some quotes made by or about the athlete for the reader to gain even more insight into the player Even if the reader is not overly concerned about the choice as to the Greatest under each uniform number the book also serves as a wonderful reference guide If the reader is interested in finding out more about any of the listed athletes it's easy to look up the player and find out who he played for and what he did between the white lines In either case Right On the Numbers serves multiple uses and is a must have for any true sports fan
