

Perspectives on Philosophy of Science in Nursing: an Historical and Contemporary Anthology.

E. CAROL POLIFRONI and MARYLOUISE WELCH (Eds.), 1999.
Philadelphia, Lippincott.
ISBN 0-7817-1201-7, 538 pp., £32 (pb).

This anthology is intended for the use of undergraduate and post-graduate nursing students. It aims to expand their knowledge of the philosophy of science and its historical development, by providing primary sources for discussion. The focus is claimed to be on those authors and topics that have been most influential in the development of nursing philosophy and nursing science.

The anthology is expensive, but it contains forty readings arranged in eight sections: 1. Nursing and Philosophy of Science: Connections and Disconnections; 2. Truth: an Exploration; 3. Explanation in Science; 4. Free Will and Determinism; 5. Phenomenology and Hermeneutics; 6. Critical Theory and Feminist Critique; 7. Science and Gender, and 8. Postmodernism and Nursing. Each section begins with an editor's introduction and a discussion guide consisting of a number of questions to prompt enquiry. Of the thirty eight authors represented, twenty have nursing qualifications, while the rest include such philosophers as Heidegger, Gadamer, Habermas, Hempel, Merleau-Ponty, Schlick, van Fraassen, Kuhn, Husserl, Hacking and Laudan. Feminist philosophy is well represented by Sandra Harding, Evelyn Fox Keller and Ruth Ginzberg. The subject and author indexes are quite thorough and I detected only three typographical errors (pp. 197, 239, 396).

With such a vast topic as this the editors had a difficult task to choose just the right readings, and almost any choice would be open to objections. The selection is generally commendable but it is surprising not to see Popper and Lakatos represented and, given the recent flowering of realism, perhaps Bhaskar or Harré. Sadly, the weakest pieces are amongst those by nurse-philosophers. Some, such as those by Benner, Leonard, Schumacher and Gortner are fine and worthy of discussion but some are rather poor. It is noticeable that the editors have not cast their net very widely: all of the nurse philosophers are from North America and their papers are taken from only four journals. However, with anthologies of this kind much depends on how the book is used. Almost any reading can be valuable if it is used as material for critical discussion.

The weakest readings from the nurse-philosophers suffer from two main faults; the first being a lack of precision. For example, several of them discuss the best choice of the many theoretical perspectives on offer, and their significance. But in the discussion the writers blithely use a profusion of terms - 'world view', 'perspective', 'metatheory', 'conceptual framework', 'narrative', 'grand narrative', 'metanarrative', 'conceptual models', 'archetype' and even 'universals' - with little attempt at definition or differentiation. 'Paradigm' is used with an abandon that would have made even Kuhn blush.

The second main weakness is an excessive desire to be inclusive: all theoretical perspective are to be tolerated, minds must be open, no possibilities excluded - except positivism of course. But philosophy and science are useful precisely because they are critical. It is not only the harvest of ideas that is valuable, but also the ability to sift the wheat from the chaff.

Perspectives A Williams Anthology:

Perspectives Frederick Rudolph, 1983 A Williams Anthology , 1910 *Biographical Dictionary of Modern American Educators* Shirley Ohles, Frederik Ohles, John Ramsay, 1997-10-28

Widely praised Greenwood's *Biographical Dictionary of American Educators* Greenwood 1978 quickly became a standard reference work for students and scholars of American education. This new volume includes biographical sketches of more than 400 notable researchers, leaders, reformers, critics, and practitioners from all major fields of education and extends the coverage of its predecessor to the mid 20th century. Its topical range encompasses such diverse areas as psychology, music, health, measurement and evaluation, science, special education, history, and administration. It treats education at all levels including early childhood, elementary and secondary, higher and adult. Most of the educators profiled were active in the 20th century but several dozen have been included from the 19th century. A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past. Each biographical sketch includes information on family background, a description of the educator's accomplishments, and a digest of the person's education and career, professional and civic service, major publications, and principal honors. Each profile ends with a list of references, and the volume closes with appendices listing birth places, states of major service, fields of work, a chronological listing of educators, and a list of important dates in American education. A comprehensive index concludes the volume. Educators are included from all fifty states and were selected from numerous suggested candidates for inclusion. Most of the educators profiled were active in the 20th century but several dozen have been included from the 19th century. A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past.

The Shakespeare Thefts Eric Rasmussen, 2011-10-11

Part literary detective story, part Shakespearean lore, *The Shakespeare Thefts* will charm the Bard's many fans. The first edition of Shakespeare's collected works, the First Folio, published in 1623, is one of the most valuable books in the world and has historically proven to be an attractive target for thieves. Of the 160 First Folios listed in a census of 1902, 14 were subsequently stolen, and only two of these were ever recovered. In his efforts to catalog all these precious First Folios, renowned Shakespeare scholar Eric Rasmussen embarked on a riveting journey around the globe involving run-ins with heavily tattooed criminal street gangs in Tokyo, bizarre visits with eccentric, reclusive billionaires, and intense battles of wits with secretive librarians. He explores the intrigue surrounding the Earl of Pembroke, arguably Shakespeare's boyfriend to whom the First Folio is dedicated, and whose personal copy is still missing. He investigates the uncanny sequence of events in which a wealthy East Coast couple drowned in a boating accident, and the next week their First Folio appeared for sale in Kansas. We hear about Folios that were censored, the pages ripped out of them, about a volume that was marked in red paint or is it blood on every page, and of yet another that has a bullet lodged in its pages.

Contemporary Perspectives On Constitutional Interpretation Susan J. Brison, 2018-03-08

Current controversies over abortion, affirmative action, school prayer,

hate speech and other issues have sparked considerable public debate about how the U S Constitution should be interpreted Such controversies along with the changing composition of an often deeply divided Supreme Court have led to a resurgence of interest in theories of constitutional interpretation This anthology edited by Susan J Brison and Walter Sinnott Armstrong presents some of the most exciting and influential contemporary work in this area Written by ten of the country s most prominent legal scholars the selections represent a wide variety of interpretive approaches reflecting different political orientations from the far right to the far left These theorists have drawn on a variety of other disciplines including literature economics history philosophy and politics and have in turn influenced these fields The selections were chosen for their accessibility originality variety and importance Together they provide an excellent introduction to constitutional interpretation as well as a valuable collection for experienced scholars in the field *Williams College* Eugene J.

George C. Williams and Evolutionary Literacy Michael P. Cohen,2022-09-28 In this book a case study of a humanistic reading of an essential evolutionary theorist George C Williams May 12 1926 September 8 2010 the author contends that certain classic works of

evolutionary theory and history are the most important nature writing of recent times What it means to be scientifically literate is essential for humanistic scholars who must ground themselves with literary reading of scientific texts As the most influential American evolutionary theorist of the second half of the twentieth century Williams masters critique frames questions about adaptation and natural selection and answers in a plain aphoristic writing style Williams aims for parsimony to recognize adaptation at the level necessitated by the facts and no higher through a minimalist writing style This voice articulates a powerful process that operates at very low levels by blind and selfish chance at the expense of its designed products using purely trial and error

Curriculum Frederick Rudolph, 1993-03-17 Curriculum is an indispensable book Written with impressive scholarship distinction of thought and uncommon wit Change Rudolph uses his dual skills of scholar and communicative writer to present a finely documented work Without a doubt it stands forth as the standard Choice In the Dark Room Rosanna Maule, Julie Beaulieu, 2009 This book examines Duras's contribution to contemporary cinema The dark room in the collection's title refers to one of Duras's metaphors for the writing process la chambre noire as the solitary space of literary creation the place where she struggles to project her internal shadow onto the blank page The dark room is also a metaphor for the film theater and by extension for the filmic experience Duras rejected conventional forms of cinematic address that encourage the spectator to develop a positive identification with the film's diegesis and narrative Her films create unusual rapports between image and sound diegetic and extra diegetic elements and textual and intertextual dimensions of cinematic representation In doing so they allow the film spectator to establish new connections with the screen This collection focuses on the aesthetic conceptual and political challenges involved in Duras's innovative approach to cinematic representation from an interdisciplinary perspective including film and literary theory psychoanalytic analysis music theory gender studies and post colonial criticism The book opens with a theoretical introduction to Duras's cinematic practice and its peculiar position in contemporary cinema and contemporary film theory and is divided into five parts each one devoted to a specific aspect of Duras's films the interaction between literature and cinema Part One the reconfiguration of the cinematic gaze Part Two and of the image sound relation Part Three the representation of history and memory Part Four and of cultural identity Part Five

Ideology in Postcolonial Texts and Contexts, 2020-11-23 Ideology in Postcolonial Texts and Contexts reflects that critiques of ideological formations occur within intersecting social political and cultural configurations where each position is in itself ideological and subject to asymmetrical power relations Postcolonialism has become an object of critique as ideology but postcolonial studies highly diversified engagement with ideology remains a strong focus that exceeds Ideologiekritik Fourteen contributors from North America Africa and Europe focus I on the complex relation between postcolonialism postcolonial theory and conceptualizations of ideology II on ideological formations that manifest themselves in very specific postcolonial contexts highlighting the potential continuities between colonial and postcolonial ideology and III on further expanding and complicating the nexus of postcolonial ideology
