Shin, Scott Shim, Shuichi Fukuda, Gianni Montagna, Cristina Carvalho, 2020-07-07 This book addresses current research trends and practice in industrial design. Going beyond the traditional design focus, it explores a range of recent and emerging aspects concerning service design, human computer interaction, and user experience design, sustainable design, virtual augmented reality, as well as inclusive universal design and design for all. A further focus is on apparel and fashion design, where innovations, developments, and challenges in the textile industry, including applications of material engineering, are taken into consideration. The Design Experience Mike Press, Rachel Cooper, 2017-03-02 How are we to understand the changing role of design and designers in the new age of consumer experience? Drawing on perspectives from cultural studies, design management, marketing, new product development, and communications theory, *The Design Experience* explores the contexts, practices, and roles of designers in today's world, providing an accessible introduction to the key issues reshaping design. The book begins by analysing how consumers acquire meaning and identity from product and other experiences made possible by design. It then explores issues of competitiveness, innovation, and management in the context of industry and commerce. If designers are creators of human experiences, what does this mean for their future role in culture and commerce? Subsequent chapters look at new ways in which designers conduct user research and how designers should communicate about design and decision making with key stakeholders. The authors conclude with a discussion of the design profession: will that label be a help or hindrance for tomorrow's designer? Written for students of design, design management, cultural and business studies, *The Design Experience* is also of interest to practitioners of design, marketing, and management. Illustrated case study material is integrated into the text, and the book also includes a glossary and extensive references.
