Point From Which Creation Begins:

BAG: "Point from which Creation Begins" Benjamin Looker, 2004 **BAG** Benjamin Looker, 2004 From 1968 to 1972 St Louis was home to the Black Artists Group BAG a seminal arts collective that nurtured African American experimentalists involved with theater visual arts dance poetry and jazz Inspired by the reinvigorated black cultural nationalism of the 1960s artistic collectives had sprung up around the country in a diffuse outgrowth known as the Black Arts Movement These impulses resonated with BAG's founders who sought to raise black consciousness and explore the far reaches of interdisciplinary performance all while struggling to carve out a place within the context of St Louis history and culture A generation of innovative artists Julius Hemphill Oliver Lake and Emilio Cruz to name but a few created a moment of intense and vibrant cultural life in an abandoned industrial building on Washington Avenue surrounded by the evisceration that typified that decade's urban crisis The 1960s upsurge in political art blurred the lines between political involvement and artistic production and debates over civil rights black nationalism and the role of the arts in political and cultural struggles all found form in BAG This book narrates the group's development against the backdrop of St Louis spaces and institutions examines the work of its major artists and follows its musicians to Paris and on to New York where they played a dominant role in Lower Manhattan's 1970s loft jazz scene By fusing social concern and artistic innovation the group significantly reshaped the St Louis and by extension the American arts landscape **Neighborhood Rebels** P. Joseph, 2010-01-04 This book examines the evolution of Black Power activism at the local level Comprised of essays that examine Black Power's impact at the grassroots level in cities in the North South Mid West and West this anthology expands on the profusion of new scholarship that is taking a second look at Black Power **Message to Our Folks** Paul Steinbeck, 2024-05-31 This year marks the golden anniversary of the Art Ensemble of Chicago the flagship band of the Association for the Advancement of Creative Musicians Formed in 1966 and flourishing until 2010 the Art Ensemble distinguished itself by its unique performance practices members played hundreds of instruments on stage recited poetry performed theatrical sketches and wore face paint masks lab coats and traditional African and Asian dress The group which built a global audience and toured across six continents presented their work as experimental performance art in opposition to the jazz industry's traditionalist aesthetics In *Message to Our Folks* Paul Steinbeck combines musical analysis and historical inquiry to give us the definitive study of the Art Ensemble In the book he proposes a new theory of group improvisation that explains how the band members were able to improvise together in so many different styles while also drawing on an extensive repertoire of notated compositions Steinbeck examines the multimedia dimensions of the Art Ensemble's performances and the ways in which their distinctive model of social relations kept the group performing together for four decades *Message to Our Folks* is a striking and valuable contribution to our understanding of one of the world's premier musical groups **Left in the Midwest** Amanda L. Izzo, Benjamin Looker, 2022-12-30 Despite St Louis's mid twentieth century reputation as a conservative

and sleepy midwestern metropolis the city and its surrounding region have long played host to dynamic forms of social movement organizing This was especially the case during the 1960s and 1970s when a new generation of local activists lent their energies to the ongoing struggles for Black freedom lesbian and gay liberation feminist social transformations environmental protection an end to the Vietnam War and more This volume the first of its kind offers fifteen scholarly contributions that together bring into focus the exceptional range of progressive activist projects that took shape in a single midwestern city during these tumultuous decades In contrast to scholarship that seeks to interpret the era s social movement initiatives in a primarily national context the works presented in this expansive collection emphasize the importance of locality neighborhood community institutions and rooted social networks Documenting wrenching forces of metropolitan change as well as grassroots resilience *Left in the Midwest* shows us how place powerfully shaped agendas worldviews and opportunities for the disparate groups that dedicated themselves to progressive visions for their city By revising our sense of the region s past this volume also expands our sense of the possibilities that the future may hold for activist movements seeking change in St Louis and beyond

St. Louis Jazz: A History Dennis C. Owsley,2019 In the early twentieth century St Louis was a hotbed for ragtime and blues both roots of jazz music In 1914 Jelly Roll Morton brought his music to the area In 1919 Louis Armstrong came to town to play on the floating conservatories that plied the Mississippi Miles Davis the most famous of the city s jazz natives changed the course of the genre four different times throughout a world renowned career The Black Artists Group of the 1970s was one of the first to bring world music practices into jazz Author Dennis C Owsley chronicles the ways both local and national St Louis musicians have contributed to the city and to the world of music

In Defiance of History Victoria Leonard,2022-02-16 This volume offers a counterbalance to the dismissal that Orosius s *Histories Against the Pagans* has suffered in most recent criticism Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian This book takes his literary endeavour seriously recognizing the unique contribution the *Histories* made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past The significance of the *Histories* is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo Orosius s mentor The approach of the book is historiographical exploring the form purpose and meaning of the *Histories* The themes of divine providence monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis The book foregrounds Orosius s significant historiographical innovations that are seldom explored such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ Each chapter contributes to the progression of knowledge about Orosius s *Histories* and the wider literary and historiographical culture of disruption that characterised the late fourth and early fifth centuries CE
