Point Pelee:

Late Prehistory of Point Pelee, Ontario and Environs David L. Keenlyside, 1978-01-01 Research at Point Pelee in extreme southern Ontario revealed a unique sequence of prehistoric occupation at three major multi component sites This sequence has been divided into four periods commencing in the 6th century A D and terminating about the fifteenth century A D

Published in English **Birding at Point Pelee** Henrietta O'Neill, 2006-10-03 A birder s history of one of Canada s most famous birding spots Birding at Point Pelee traces Point Pelee s story from the 1870s to the national park s establishment in 1918 to present day when as many as 50 000 birders visit the park in May during spring migration The book portrays the backdrop against which the park was evolving the scientific discoveries and changes in ornithological methods through the decades early specimen collecting bird banding the development of binoculars and telescopes the growth of nature photography the shift from birding as science to birding as hobby as well as philosophical shifts and debates about amateur versus professional credentials and the balance to strike between conservation and recreation Thoroughly researched and lively the story takes readers from the earliest days when the birders were few but fervent to today s international tourism phenomenon *Point Pelee* Darryl Stewart, Don Ross, 1977

Canadian Wetlands Rod Giblett, 2014-12-15 In Canadian Wetlands Rod Giblett reads the Canadian canon against the grain critiquing its popular representation of wetlands and proposing alternatives by highlighting the work of recent and contemporary Canadian authors such as Douglas Lochhead and Harry Thurston and by entering into dialogue with American writers The book will engender mutual respect between researchers for the contribution that different disciplinary approaches can and do make to the study and conservation of wetlands internationally **The Reluctant Twitcher** Richard Pope, 2009-09-07 The human side of birding comes to the fore in *The Reluctant Twitcher* a serious yet humorous account of birds and birding and the art of chasing rarities Richard Pope a lifelong birder had successfully avoided this latter pursuit for many years but capitulated in 2007 when he embarked on his Big Year the object being to record at least three hundred birds in Ontario within that calendar period Almost instantly a relatively normal birdwatcher morphed into a twitcher albeit reluctantly pursuing rare species of birds from Rainy River to the Ottawa and well beyond his wildest expectations Though it was a challenge that was not without trials and

Fabbri, 2012-12-06 Human clustering in coastal areas The coastal zone has gained a solid reputation as a place vocated for recreational activities and this is generally related to the presence of the sea The relationship however does not appear univocal or simple the sea can be perceived as a hostile element by humans and the more general question of whether the presence of the shore is in itself a favourable repulsive or irrelevant factor to settlement is a debatable point at least for pre industrial societies Back in the

early part of the 19th century Friedrich Hegel regarded oceans and rivers as unifying elements rather than dividing ones thus implying a trend towards the concentration of human settlements along them The sea he wrote stimulates 1 courage and conquest as well as profit and plunder although he realized that this did not equally apply to all maritime peoples In Hegel s view different approaches to the sea were mainly the results of cultural factors and in fact he recognized that some people living in coastal areas perceive the sea as a dangerous and alien place and the shore as aftnis terrae Bulletin American Game Protective Association,1923 *Recreational Land Use* Geoffrey Wall,John S.
