**Public Policymaking by Private Organizations** Catherine E. Rudder, A. Lee Fritschler, Yon Jung Choi, 2016-07-12 How private groups increasingly set public policy and regulate lives with little public knowledge or attention From accrediting doctors and lawyers to setting industry and professional standards private groups establish many of the public policies in today's advanced societies Yet this important role of nongovernmental groups is largely ignored by those who study teach or report on public policy issues *Public Policymaking by Private Organizations* sheds light on policymaking by private groups which are not accountable to the general public or often even to governments This book brings to life the hidden world of policymaking by providing an overview of this phenomenon and in depth case studies in the areas of finance food safety and certain professions Far from being merely self regulation or self governance policymaking by private groups for good or ill can have a substantial impact on the broader public from ensuring the safety of our home electrical appliances to vetting the credit worthiness of complex financial instruments in the run up to the 2008 financial crisis From nonprofit associations to multinational corporations private policymaking groups are everywhere They certify professionals as competent establish industry regulations and set technical and professional standards But because their operations lack the transparency and accountability required of governmental bodies these organizations comprise a policymaking territory that is largely unseen unreported uncharted and not easily reconciled with democratic principles Anyone concerned about how policies are made and who makes them should read this book

**Blood of the Mantis** Adrian Tchaikovsky,2010-05-04 Driven by the ghosts of the Darakyon Achaeos has tracked the stolen Shadow Box to the marsh town of Jerez but he has only days before the magical box is lost to him forever Meanwhile the forces of the Empire are mustering over winter for their great offensive gathering their soldiers and perfecting their new weapons Stenwold and his followers have only a short time to gather what allies they can before the Wasp armies march again conquering everything in their path If they cannot throw back the Wasps this spring then the imperial black and gold flag will fly over every city in the Lowlands before the year s end In Jerez begins a fierce struggle over the Shadow Box as lake creatures secret police and renegade magicians compete to take possession If it falls into the hands of the Wasp Emperor however then no amount of fighting will suffice to save the world from his relentless ambition **Whose Lives Are They Anyway?** Dennis Bingham,2010-03-04 The biopic presents a profound paradox its own conventions and historical stages of development disintegration investigation parody and revival have not gained respect in the world of film studies That is until now *Whose Lives Are They Anyway* boldly proves a critical point The biopic is a genuine dynamic genre and an

important one it narrates exhibits and celebrates a subject's life and demonstrates, investigates or questions his or her importance in the world; it illuminates the finer points of a personality and ultimately it provides a medium for both artist and spectator to discover what it would be like to be that person or a certain type of person. Through detailed analyses and critiques of nearly twenty biopics, Dennis Bingham explores what is at their core: the urge to dramatize real life and find a version of the truth within it. The genre's charge, which dates back to the salad days of the Hollywood studio era, is to introduce the biographical subject into the pantheon of cultural mythology and, above all, to show that he or she belongs there. It means to discover what we learn about our culture from the heroes who rise and the leaders who emerge from cinematic representations. Bingham also zooms in on distinctions between cinematic portrayals of men and women. Films about men have evolved from celebratory warts and all to investigatory to postmodern and parodic. At the same time, women in biopics have been burdened by myths of suffering victimization and failure from which they are only now being liberated. To explore the evolution and lifecycle changes of the biopic and develop an appreciation for subgenres contained within it, there is no better source than *Whose Lives Are They Anyway* (Good Roads, 1917), *What to Eat* (1907), *Marine Insurance* (William D. Winter, 1929), *Reading the Reverse Façade of Reims Cathedral* (Donna L. Sadler, 2017-07-05). Though long recognized as one of the most beautiful works from the second half of the thirteenth century, the magnificent sculptural program of the reverse façade at Reims Cathedral has received little in the way of scholarly attention. Interpreting the iconography in the light of Latin texts associated with the building, its history and its ceremonial use, Donna Sadler assesses the significance of the reverse façade in light of other thirteenth-century visual programs associated with the court of Louis IX. The book's chapters deal with the history of the cathedral and its architectural antecedents, the iconographic message of the visual program, the meaning of the reverse façade and how it intersects with the overall iconography, the function of the verso and how it is enhanced by the marriage of form and content, and a consideration of contemporary works linked to the court of Saint Louis, concluding with a brief look at the new roles sculpture assumes as it migrates inside cathedrals. Ultimately, this book reveals how the imagery on the reverse façade not only conforms to a system of memory and mode of medieval narratology but also articulates a dominant ideological position regarding the interdependence of ecclesiastical and royal powers.

*Driven (Reflections Volume 9)* (Dean Murray, Eldon Murphy, 2014-05-29). Jasmin is a 17-year-old shape shifter whose whole world has been turned upside down over the last six months. Her pack has been scattered; she's nearly died more times than she can count; and the boy she cares about more than anyone else in the entire world is in a vampire-caused coma that has every sign of being terminal. Geoffrey has spent untold decades or possibly even centuries as a slave to others of his kind: vampires who were stronger and more ruthless than him. Escaping New York, cost Geoffrey everything, and the holes inside of his memory mean that he doesn't even really understand what it is he lost in his efforts to get away from his former master. Immense Vampires and shape shifters are natural enemies, but these two are going to have to find a way to work together.

There's more at stake than just their own lives and forces neither of them fully understand are gathering to make sure that neither of them survive the week.

**Publisher's Note** For the first time characters from Dean Murray's Reflections novels will be meeting up with characters from Eldon Murphy's Reflections novels. Before reading *Driven*, it is strongly suggested that the reader have finished the Eldon Murphy Reflections books up to this point: *The Greater Darkness* and *A Darkness Mirrored*, as well as all of the Dean Murray Reflections titles: *Broken*, *Torn*, *Splintered*, *Intrusion*, *Numb*, *Trapped*, *Forsaken*, and *Riven*.
