Pol Pot Anatomy Of A Nightmare:

Pol Pot Philip Short, 2007-04-01 A gripping and definitive portrait of the man who headed one of the most enigmatic and terrifying regimes of modern times In the three and a half years of Pol Pot's rule more than a million Cambodians a fifth of the country's population were executed or died from hunger An idealistic and reclusive figure Pol Pot sought to instill in his people values of moral purity and self abnegation through a revolution of radical egalitarianism In the process his country descended into madness becoming a concentration camp of the mind a slave state in which obedience was enforced on the killing fields How did a utopian dream of shared prosperity mutate into one of the worst nightmares humanity has ever known To understand this almost inconceivable mystery Philip Short explores Pol Pot's life from his early years to his death Short spent four years traveling throughout Cambodia interviewing the surviving leaders of the Khmer Rouge movement many of whom have never spoken before including Pol Pot's brother in law and the former Khmer Rouge head of state He also sifted through the previously closed archives of China Russia Vietnam and Cambodia itself to trace the fate of one man and the nation that he led into ruin This powerful biography reveals that Pol Pot and the Khmer Rouge were not a one off aberration but instead grew out of a darkness of the soul common to all peoples Cambodian history and culture combined with intervention from the United States and other nations to set the stage for a disaster whose horrors echo loudly in the troubling events of our world today [The Killing of Cambodia: Geography, Genocide and the Unmaking of Space](#) James A. Tyner, 2017-05-15 Between 1975 and 1978 the Khmer Rouge carried out genocide in Cambodia unparalleled in modern history Approximately 2 million died almost one quarter of the population Taking an explicitly geographical approach this book argues whether the Khmer Rouge's activities not only led to genocide but also terraced the erasure of space In the Cambodia of 1975 the landscape would reveal vestiges of an indigenous pre colonial Khmer society a French colonialism and American intervention The Khmer Rouge however were not content with retaining the past inscriptions of previous modes of production and spatial practices Instead they attempted to erase time and space to create their own utopian vision of a communal society The Khmer Rouge's erasing and reshaping of space was thus part of a consistent sacrifice of Cambodia and its people a brutal justification for the killing of a country and the birth of a new place Democratic Kampuchea While focusing on Cambodia the book provides a clearer geographic understanding to genocide in general and insights into the importance of spatial factors in geopolitical conflict **The Barter Economy of the Khmer Rouge Labor Camps** Scott Pribble, 2023-07-21 Pribble investigates the barter economies that developed in many of the labor camps established under the Khmer Rouge in Cambodia When the Khmer Rouge abolished currency and markets in 1975 starving Cambodians created underground exchanges in labor camps throughout the country bartering luxury items for food and other necessities while simultaneously undermining the regime's ideological goals of eliminating any traces of capitalism in Democratic Kampuchea Pribble asserts three key points about the barter economy in the Khmer Rouge labor camps First the underground exchanges

in Democratic Kampuchea provided food and medicine for desperate people subsisting under a totalitarian regime saving the lives of countless Cambodians Second bartering was the riskiest way to obtain food because it was dependent upon the discretion of two or more individuals from different social classes under the threat of violent punishment thereby altering the social dynamics of the camps Finally despite the regime's extreme efforts to eliminate foreign influence from the country and impose communist ideology on millions of citizens basic forms of market capitalism and a demand for superfluous luxury goods persisted in labor camps throughout the country A fascinating study of the human consequences of imposing rigid ideology that will be of particular interest to scholars and students of political history and Southeast Asian history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Pol Pot Philip Short, 2004 Pol Pot was an idealistic reclusive figure with great charisma and personal charm He initiated a revolution whose radical egalitarianism exceeded any other in history But in the process his country descended into madness and his name became a byword for oppression In the three and a half years of his rule in Cambodia more than a million people a fifth of Cambodia's population were executed or died from hunger and disease A supposedly gentle carefree land of slumbering temples and smiling peasants became a concentration camp of the mind a slave state in which absolute obedience was enforced on the killing fields Philip Short has spent four years travelling the length and breadth of Cambodia interviewing surviving leaders of Pol Pot's Khmer Rouge movement and sifting through previously closed archives from China Russia and Vietnam as well as Cambodia itself Here the former Khmer Rouge Head of State Pol's brother in law and scores of lesser figures speak for the first time at length about their beliefs and motives as Philip Short traces Pol Pot's life from altruistic youth to become one of the twentieth century's most egregious political monsters

Genocide in Contemporary Children's and Young Adult Literature Jane Gangi, 2014-03-14 This book studies children's and young adult literature of genocide since 1945 considering issues of representation and using postcolonial theory to provide both literary analysis and implications for educating the young Many of the authors visited accurately and authentically portray the genocide about which they write others perpetuate stereotypes or otherwise distort demean or oversimplify In this focus on young people's literature of specific genocides Gangi profiles and critiques works on the Cambodian genocide 1975 1979 the Iraqi Kurds 1988 the Maya of Guatemala 1981 1983 Bosnia Kosovo and Srebrenica 1990s Rwanda 1994 and Darfur 2003 present In addition to critical analysis each chapter also provides historical background based on the work of prominent genocide scholars To conduct research for the book Gangi traveled to Bosnia engaged in conversation with young people from Rwanda and spoke with scholars who had traveled to or lived in Guatemala and Cambodia This book analyses the ways contemporary children typically ages ten and up are engaged in the study of genocide and addresses the ways in which child survivors who have witnessed genocide are helped by literature that mirrors their experiences *Landscape, Memory, and Post-Violence in Cambodia* James A. Tyner, 2016-11-16 Between 1975 and 1979 the Khmer Rouge regime in Cambodia enacted a program of organized mass violence that resulted in the deaths of approximately one quarter of the country's

population Over two million people died from torture execution disease and famine From the commodification of the killing fields of Choeung Ek to the hundreds of unmarked mass graves scattered across the country violence continues to shape the Cambodian landscape Landscape Memory and Post Violence in Cambodia explores the on going memorialization of violence As part of a broader engagement with war violence and critical heritage studies it explores how a legacy of organized mass violence becomes part of a cultural heritage and in the process how this heritage is produced Existing literature has addressed explicitly the impact of war and armed conflict on cultural heritage through the destruction of heritage sites This book inverts this concern by exploring what happens when sites of heritage violence are under threat It argues that the selective memorialization of Cambodia s violent heritage negates the everyday lived experiences of millions of Cambodians and diminishes the efforts to bring about social justice and reconciliation In doing so it develops a grounded conceptual understanding of post violence in conflict zones internationally *Library Lin's Biographies, Autobiographies, and Memoirs* Linda Maxie,2023-06-15 People are fascinating but finding the best biography autobiography or memoir can be tough with so many to choose from Linda Maxie Library Lin examined hundreds of recommended books about people to offer guidance on which books to select In this survey you will find Forty subject specific chapters of recommended biographies autobiographies and memoirs Classic biographies that have withstood the test of time Recent titles featuring people living impacted by current events Inspiring biographies and memoirs of all sorts Suggestions for further reading Why waste time searching for books to read when you could have hundreds of excellent titles with their summaries at your fingertips Let Library Lin be your guide to artists world leaders athletes actors royalty activists and so many more [The Cambridge World History of Genocide: Volume 3, Genocide in the Contemporary Era, 1914-2020](#) Ben Kiernan,Wendy Lower,Norman Naimark,Scott Straus,2023-05-04 Volume III examines the most well known century of genocide the twentieth century Opening with a discussion on the definitions of genocide and ethnic cleansing and their relationships to modernity it continues with a survey of the genocide studies field racism and antisemitism The four parts cover the impacts of Racism Total War Imperial Collapse and Revolution the crises of World War Two the Cold War and Globalization Twenty eight scholars with expertise in specific regions document thirty genocides from 1918 to 2021 in Europe the Middle East Africa Asia and Latin America The cases range from the Armenian Genocide to Maoist China from the Holocaust to Stalin s Ukraine from Indonesia to Guatemala Biafra Bangladesh Cambodia Bosnia and Rwanda and finally the contemporary fate of the Rohingyas in Myanmar and the ISIS slaughter of Yazidis in Iraq The volume ends with a chapter on the strategies for genocide prevention moving forward [United States Law and Policy on Transitional Justice](#) Zachary Daniel Kaufman,2016 In United States Law and Policy on Transitional Justice Principles Politics and Pragmatics Zachary D Kaufman explores the U S government s support for or opposition to certain transitional justice institutions By first presenting an overview of possible responses to atrocities such as war crimes tribunals and then analyzing six historical case studies Kaufman evaluates why

and how the United States has pursued particular transitional justice options since World War II This book challenges the legalist paradigm which postulates that liberal states pursue war crimes tribunals because their decision makers hold a principled commitment to the rule of law Kaufman develops an alternative theory prudentialism which contends that any state liberal or illiberal may support bona fide war crimes tribunals More generally prudentialism proposes that states pursue transitional justice options not out of strict adherence to certain principles but as a result of a case specific balancing of politics pragmatics and normative beliefs Kaufman tests these two competing theories through the U S experience in six contexts Germany and Japan after World War II the 1988 bombing of Pan Am flight 103 the 1990 1991 Iraqi offenses against Kuwaitis the atrocities in the former Yugoslavia in the 1990s and the 1994 Rwandan genocide Kaufman demonstrates that political and pragmatic factors featured as or more prominently in U S transitional justice policy than did U S government officials normative beliefs Kaufman thus concludes that at least for the United States prudentialism is superior to legalism as an explanatory theory in transitional justice policymaking

Perpetrators and Perpetration of Mass Violence Timothy Williams, Susanne Buckley-Zistel, 2018-04-17 As the most comprehensive edited volume to be published on perpetrators and perpetration of

mass violence the volume sets a new agenda for perpetrator research by bringing together contributions from such diverse disciplines as political science sociology social psychology history anthropology and gender studies allowing for a truly interdisciplinary discussion of the phenomenon of perpetration The cross case nature of the volume allows the reader to see patterns across case studies bringing findings from inter alia the Holocaust the genocides in Rwanda and the former Yugoslavia and the civil wars in Cambodia and Cote d'Ivoire into conversation with each other The chapters of this volume are united by a common research interest in understanding what constitutes perpetrators as actors what motivates them and how dynamics behind perpetration unfold Their attention to the interactions between disciplines and cases allows for the insights to be transported into more abstract ideas on perpetration in general Amongst other aspects they indicate that instead of being an extraordinary act perpetration is often ordinary that it is crucial to studying perpetrators and perpetration not from looking at the perpetrators as actors but by focusing on their deeds and that there is a utility of ideologies in explaining perpetration when we differentiate them more carefully and view them in a more nuanced light This volume will be vital reading for students and scholars of genocide studies human rights conflict studies and international relations
