Mexico City is one of Latin America's cultural capitals and one of the most vibrant urban spaces in the world. The Mexico City Reader is an anthology of Cronicas short hybrid texts that are part literary essay part urban reportage about life in the capital. This is not the City of Palaces of yesteryear but the vibrant chaotic anarchic urban space of the 1980s and 1990s the city of garbage mafias necrophiliac artists and kitschy millionaires. Like the visitor wandering through the city streets the reader will be constantly surprised by the visions encountered in this mosaic of writings a textual space brimming with life and crowded with flaneurs flirtatious students Indian dancers food vendors fortune tellers political activists and peasant protesters. The essays included in this anthology were written by a panoply of writers from well known authors like Carlos Monsivís and Jorge Ibagüera to younger figures like Fabrizio Mejía Madrid and Juieta García González all of whom are experienced practitioners of the city. The texts collected in this anthology are among the most striking examples of this concomitant theory and practice of Mexico City that most delirious of megalopolises. An exciting literary journey. Animal History in the Modern City Clemens Wischermann, Aline Steinbrecher, Philip Howell, 2018-09-06. This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. Animals are increasingly recognized as fit and proper subjects for historians yet their place in conventional historical narratives remains contested. This volume argues for a history of animals based on the centrality of liminality the state of being on the threshold not quite one thing yet not quite another. Since animals stand between nature and culture wildness and domestication the countryside and the city and tradition and modernity the concept of liminality has a special resonance for historical animal studies. Assembling an impressive cast of contributors this volume employs liminality as a lens through which to study the social and cultural history of animals in the modern city. It includes a variety of case studies such as the horse human relationship in the towns of New Spain hunting practices in 17th century France the birth of the zoo in Germany and the role of the stray dog in the Victorian city demonstrating the interrelated nature of animal and human histories. *Animal History in the Modern City* is a vital resource for scholars and students interested in animal studies urban history and historical geography. *Guide to the Nature Treasures of New York City* George N.
