Police And Social Conflict Rhetoric And Reality:

The Police and Social Conflict Nigel Fielding, 1991-01-01 Volume two in a series which provides reports on areas of British life conventionally conceived to be conflict laden assessing the scale and character of the conflict in those areas The series aims to consider new or little heeded evidence balancing the claims of different commentators and placing such conflict in its historical and social contest allowing intelligent judgements to be made It provides prognoses about the likely development of that conflict and ascertain what measures have been taken to manage it and what success they have had drawing on international experience where helpful

The Fragmentation of Policing in American Cities Hung-En Sung, 2001-11-30 The relationship between police and the communities and citizens they serve has long been a topic of study and controversy Sung provides a place oriented theory of policing to guide strategies for crime control and problem oriented policing He contends that community policing is a product of power relations among communities Sung also explores how police and citizens interact with each other in stratified and residentially segregated communities how services are delivered by police how citizens respond to those charged with protecting them and enforcing the law Illuminating the police neighborhood and advancing a clear hypothesis for explaining and predicting changes in police behavior this both provides a conceptual platform for public policy debate planning and evaluation of police public safety and democratic governance According to Sung place has everything to do with the success of community policing and the attitudes of both police and citizens contribute to the success or failure of police initiatives as well as the level of crime inherent in a community By focusing on the social and political forces that shape the residential patterns of American cities and the organization of police work Sung provides a theoretical framework for considering the relations between police and citizens in different neighborhoods He concludes that current modes of police community relations and crime prevention will improve only if the policies adopted encourage the transformation of marginal communities into communities where citizens feel a shared responsibility for maintaining and peace and order This unique contribution to a growing field of study provides an ecological theory of police citizen relations that begins with the inequality and segregation inherent in many American cities

Collective Violence, Democracy and Protest Policing David R Mansley, 2013-10-08 In this book David Mansley argues that the frequency with which violence intrudes on to the streets is related to both how society is governed and how it is policed With the help of an innovative methodology he quantifies and tests three variables collective violence democracy and protest policing using protests in Great Britain in 1999 2011 for his sampling frame The result is the design of new tools of

measurement and a harvest of new data including previously unpublished details of banning orders and riot damages that enable us to reflect with the benefit of broad sociological perspective on the causes of contemporary violent events Mansley's explanation of the trends he identifies draws from the work of the best thinkers on violence especially Charles Tilly Thomas Hobbes and Norbert Elias He shows how the style of protest policing and the depth of democracy both of which function under the direction of the political economy are crucial to the state's credentials as the monopoly supplier of legitimate violence His discussion touches on such current topics as the institution of police commissioners the privatisation of policing duties and the decline in homicide This cultured study which includes an engaging review of the existing scholarship on violence is essential material for undergraduate and postgraduate students reading criminology sociology or political theory

contexts from which conflicts of interest emerge The book examines conflicts of interest across the private and public realm of the everyday lives of police officers The author outlines how the problem of conflict of interest is an important aspect of police ethics arguing that recognition of and accountability for conflict of interest may be a significant element in preventing upstream police misconduct and corruption Conflict of Interest in Policing seeks to provide a conceptual and practical understanding of how integrity and trust must be integrated into the profession of policing through processes of active responsibility rather than more traditional passive obedience to prescriptive rules *The Privatization of Policing* Brian Forst, Peter K. Manning, 1999-06-10 The increasing reliance on private security services raises questions about the effects of privatization on the quality of public police forces particularly in high crime low income areas In an effective pro and con format two experts on policing offer two strikingly different perspectives on this trend towards privatization In the process they provide an unusually thoughtful discussion of the origins of both the public police and the private security sectors the forces behind the recent growth of private security operations and the risks to public safety posed by privatization In his critique of privatization Peter K Manning focuses on issues of free market theory and management practices such as Total Quality Management that he believes are harmful to the traditional police mandate to control crime He questions the appropriateness of strategies that emphasize service to consumers For Brian Forst the free market paradigm and economic incentives do not carry the same stigma He argues that neither public nor private policing should have a monopoly on law enforcement activities and he predicts an even more varied mix of public and private police activities than are currently available Following the two main sections of the book each author assesses the other's contribution reflecting on not just their points of departure but also on the areas in which they agree The breadth and depth of the discussion makes this book essential for both scholars and practitioners interested in policing generally and privatization in particular *Policing the Home Front 1914-1918* Mary Fraser, 2018-12-07 The civilian police during the First World War in Great Britain were central to the control of the population at home This book will show the detail and challenges of police work during the First World War and how this impacted on ordinary people's daily lives The aim is to tell the story of the police as they saw themselves through the pages of their best known journal The Police Review and Parade Gossip in addition to a wide range of other published archival and private sources **Criminal Justice 2000**, 2000 *Criminal Justice* Peter Joyce, 2013 This book assesses the main theories concerned with the causes of crime and provides an account and analysis of the response of the state to crime in England and Wales It is a useful text for students taking courses in criminal justice *History of Policing, Crime, Disorder, Punishment* Peter Joyce, Wendy Laverick, 2023-07-19 This engaging textbook provides a broad and unique coverage of the key historical events that shaped ideas in criminology criminal justice and policing from the late seventeenth century to the early twenty first century in England and Wales It vividly illustrates the multi disciplinary nature of criminology and penology by providing important insights into the social and political issues that shaped the development
