No More Kin Anne R. Roschelle, 1997-04-17 Black and Latino families are in fact highly family oriented and want to be involved in exchange networks but because they are economically disenfranchised they are prevented from participation The vitriolic debate on welfare reform currently sweeping the nation assumes that if institutional mechanisms of social support are eliminated impoverished families will simply rely on an extensive web of kinship networks for their survival The political discourse surrounding poverty and welfare reform has an increasingly racial undertone Implementation of social policy that presupposes the availability of family safety nets in minority communities could have disastrous consequences for many without extended kin networks Many scholars and political analysts assume that thriving kin and non kin social support networks continue to characterize minority family life Policy recommendations based on these underlying assumptions may lead to the implementation of harmful social policy No More Kin examines extended kinship networks among African American Chicano Puerto Rican and non Hispanic white families in contemporary America and seeks to provide an integrated theoretical framework for examining how the simultaneity of gender race and

class oppression affects minority family organization Breaking new ground in a variety of fields No More Kin is sure to become a valuable resource for students and professionals in family studies gender studies and race ethnic studies

The Official History of Criminal Justice in England and Wales Paul Rock, 2019-04-23 Volume I of The Official History of Criminal Justice in England and Wales frames what was known about crime and criminal justice in the 1960s before describing the liberalising legislation of the decade Commissioned by the Cabinet Office and using interviews British Government records and papers housed in private and institutional collections this is the first of a collaboratively written series of official histories that analyse the evolution of criminal justice between 1959 and 1997 It opens with an account of the inception of the series before describing what was known about crime and criminal justice at the time It then outlines the genesis of three key criminal justice Acts that not only redefined the relations between the State and citizen but also shaped what some believed to be the spirit of the age the abolition of capital punishment and the reform of the laws on abortion and homosexuality The Acts were taken to be so contentious morally and politically that Governments of different stripes were hesitant about promoting them formally The onus was instead passed to backbenchers who were supported by interlocking groups of reformers with a pooled knowledge about how to effectively organise a rhetoric that drew on the language of utilitarianism and the clarity and authority of a Church of England This came to play an increasingly consequential and largely unacknowledged part in resolving what were often confusing moral questions This book will be of much interest to students of criminology and British history politics and law
