**Self-Defense** Elsa Dorlin, 2022-09-27 Is violent self defense ethical In the history of colonialism racism sexism capitalism there has long been a dividing line between bodies worthy of defending and those who have been disarmed and rendered defenseless In 1685 for example France's infamous Code Noir forbade slaves from carrying weapons under penalty of the whip In nineteenth century Algeria the colonial state outlawed the use of arms by Algerians but granted French settlers the right to bear arms Today some lives are seen to be worth so little that Black teenagers can be shot in the back for appearing threatening while their killers are understood by the state to be justified That those subject to the most violence have been forcibly made defenseless raises for any movement of liberation the question of using violence in the interest of self defense Here philosopher Elsa Dorlin looks across the global history of the left from slave revolts to the knitting women of the French Revolution and British suffragists training in ju jitsu from the Warsaw Ghetto Uprising to the Black Panther Party from queer neighborhood patrols to Black Lives Matter to trace the politics philosophy and ethics of self defense In this history she finds a martial ethics of the self a practice in which violent self defense is the only means for the oppressed to ensure survival and to build a liveable future In this sparkling and provocative book drawing on theorists from Thomas Hobbes to Fred Hampton Frantz Fanon to Judith Butler Michel Foucault to June Jordan Dorlin has reworked the very idea of modern governance and political subjectivity Translated from the French by Kieran Aarons *For Security Personnel, DEFENSIVE BATON, 2020* Mürsel Sevindik, 2020-04-17 This book covers Defensive Baton issues for law enforcement officer The goal is for the officers to understand and demonstrate the tactical fundamentals of the baton in an operational setting and its proper use as an intermediate impact weapon One of the major dilemmas facing law enforcement today is the continually increasing number of assaults on police officers as they perform their duties How can the officer respond to this critical situation without resorting to deadly force Modern law enforcement tool has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force That tool is the baton The ability to use force lawfully against the public is the primary factor which distinguishes the police from the rest of society The police service is unique in society as they are the only civil organization that has been given the authority to use force As a result of this responsibility the use of force by the police comes under close scrutiny by both the public and the courts The baton can be utilized when empty hand techniques are not effective A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm The main purpose of the

baton is to stun or temporarily disable rather than cause permanent injury The baton is not designed as a lethal weapon and is not an instrument of punishment It is to be used in a skillful manner to counter or stop an aggressive subject The techniques shown in this booklet has been universally accepted and are defensible in court They are designed to work efficiently for all officers male female small large fit and the less fit Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement *For Security Personnel, DEFENCE and INTERVENTION, Theory and Practice, 2020 (Officer Survival Skills, Use of Force, Soft Empty Hand Control, Hard Empty Hand Control, Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton)* Mürsel Sevindik,2020-04-29 This book covers Officer Survival Skills Use of Force Soft Empty Hand Control Hard Empty Hand Control Weapon Retention and Gun Disarming Handcuffing Conducting Suspect Searches and Defensive Baton issues for law enforcement officer The most important priority of the officer is able to survive in dangerous situations These techniques provide officers self confidence which is needed to win Law enforcement officers are authorized to use a range of force options to preserve the peace prevent crimes maintain order and apprehend suspects Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting Hard Empty Hand Control techniques are defined as striking techniques In some close encounters a suspect may try to grab the officer s sidearm Officers must develop a defensive awareness that their weapon can be snatched Handcuffs are temporary restraining devices designed to control the movements of a subject Body searching is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement **FACTS AND FALLACIES ABOUT MARTIAL ARTS & SELF**
