The History of Policing America Laurence

Armand French, 2018-04-05 America's first known system of law enforcement was established more than 350 years ago. Today law enforcement faces issues such as racial discrimination, use of force, and Body Worn Camera (BWC) scrutiny. But the birth and development of the American police can be traced to a multitude of historical, legal, and political-economic conditions. In *The History of Policing America: From Militias and Military to the Law Enforcement of Today*, Laurence Armand French traces how and why law enforcement agencies evolved and became permanent agencies looking logically through history and offering potential steps forward that could make a difference without triggering unconstructive backlash. From the establishment of the New World to the establishment of the Colonial Militia, from emergence of the Jim Crow Era to the emergence of the National Guard, from the creation of the U.S. Marshalls, federal law enforcement agencies, and state police agencies, this book traces the historical, geo-political basis of policing in America and even looks at how certain events led to a call for a better trained and subsequently armed police and the de facto militarization of law enforcement. The current controversy regarding policing in America has a long historical background and one that seems to repeat itself. *The History of Policing America* successfully portrays the long-lived motto: you can't know who you are until you know where you've come from.

The Police in America: An Introduction Walker, *Policing America* Kenneth J. Peak, 2011. For courses in Introduction to Policing or General Policing or as a supplemental text for Community Policing or Police Administration. *Policing America 7e* offers a problem-solving approach that emphasizes what is actually working in the field. Based on the author's over thirty years of practical policing and academic experience, the book covers policing topics and tactics including history, patrol, police subculture, investigation, organization, and administration, community policing, the rule of law, accountability, civil liability, and technologies. Organized so as to flow smoothly for the instructor and student, this edition now features a new chapter on personnel issues, a major revision of the futures chapter, and new Learn by Doing scenarios and Career Profiles that provide a penetrating view of one of the most difficult and challenging occupations in America: policing.

Thin Blue Fault Line - Policing America John C. Franklin, John F. Hein, 2021-02-22. Authors Franklin and Hein have witnessed firsthand difficulties experienced in some Black communities. They use their knowledge to analyze and discuss the interactions between American policing, a subculture of the Black community, and the BLM movement. The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot Black men. It describes how blue-on-black shootings, along with police tactics, sometimes cause intense citizen responses through public statements, outbursts, and demonstrations.

It begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another Because of civil rights efforts American policing is going through a transformation A change in policing tactics must be met with a re evaluation of some cultural norms by the black community They also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough The authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself Finally the authors believe that American policing understands its 21st century obligations and is taking steps to meet them

The New Guardians Cedric L. Alexander, 2016-06-02 The New Guardians Policing in America's Communities for the 21st Century embodies nearly forty years of experience in law enforcement in addition to a career in clinical psychology In search of a better way to police our nation Dr Cedric L Alexander takes us back some 200 years to the Constitution and then some 2 400 to Plato's Republic and shows us how to remodel the warrior cop into the Guardian at the heart of community policing Amid today's explosion of homicide in our most challenged neighborhoods and the bid of international terrorism for the allegiance of marginalized youth everywhere healing wounded relations between the police and the people has never been more urgent This is the story of one man's quiet courageous leadership Cedric L Alexander entered law enforcement in 1977 as a deputy sheriff in Leon County Florida on the brink of profound transformations in America and American policing In many cities the nation was in civil war the police on one side the community on the other Wars are about winning by inflicting defeat As a young deputy Alexander saw that unending combat was destroying police community relations He devoted the next four decades to creating something new and something better His background combines a long career as a deputy a police officer and a detective in the Tallahassee area in Orlando and in Miami Dade Florida with a career in clinical psychology both as a practitioner and an assistant professor at the University of Rochester New York He holds a Doctorate of Clinical Psychology from Wright State University Dayton Ohio and provided senior level administrative and clinical leadership of mental health services within the Department of Psychiatry at the University of Rochester School of Medicine with special emphasis on counseling police officers firefighters and their families He served as Deputy Chief and then as Chief of Police of the Rochester Police Department and subsequently was appointed Deputy Commissioner in the New York State Division of Criminal Justice Services before joining the U S Department of Homeland Security as Federal Security Director for Dallas Fort Worth International Airport DFW In 2013 Dr Alexander was appointed Chief of Police for DeKalb County and at the end of the year became Deputy Chief Operating Officer Public Safety Director About the Author Cedric L Alexander Psy D is Director of Public Safety and Deputy Chief Operating Officer DeKalb County Office of Public Safety responsible for leading

Policing America's Empire Alfred W. McCoy, 2009-10-15 At the dawn of the twentieth century the U S Army swiftly occupied Manila and then plunged into a decade long pacification campaign with striking parallels to today's war in Iraq Armed with cutting edge technology from America's first information revolution the U S colonial regime created the most modern police and intelligence units anywhere under the American flag In *Policing America's Empire* Alfred W McCoy shows how this imperial panopticon slowly crushed the Filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information Even after Washington freed its colony and won global power in 1945 it would intervene in the Philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression In trying to create a democracy in the Philippines the United States unleashed profoundly undemocratic forces that persist to the present day But security techniques bred in the tropical hothouse of colonial rule were not contained McCoy shows at this remote periphery of American power Migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during World War I Once established under the pressures of wartime mobilization this distinctively American system of public

private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed U S society with active informers secretive civilian organizations and government counterintelligence agencies In each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during World War I to the mass incarceration of Japanese Americans during World War II all the way to the secret blacklisting of suspected communists during the Cold War

Our Enemies in Blue Kristian Williams, 2015-08-17 Let s begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute s last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn t an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today s unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful **Our Enemies in Blue** is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives Kristian Williams is the author of several books including **American Methods** **Torture and the Logic of Domination** He co edited **Life During Wartime** **Resisting Counterinsurgency** and lives in Portland Oregon
