Policing In Wartime One Mounties Story:

The Literary History of Alberta Volume One George Melnyk, 1998-04 Alberta's contradictory landscape has fired the imaginative energies of writers for centuries. The sweep of the plains, the thrust of the Rockies and the long roll of the woodlands have left vivid impressions on all of Alberta's writers, both those who passed through Alberta in search of other horizons and those who made it their home. *The Literary History of Alberta* surveys writing in and about Alberta from prehistory to the middle of the twentieth century. It includes profiles of dozens of writers from the earnestly intended to the truly gifted and their texts from the commercial to the arcane. It reminds us of long forgotten names and faces, figures who quietly or not so quietly wrote the books that underpin Alberta's thriving literary culture today. Melnyk also discusses the institutions that have shaped Alberta's literary culture. *The Literary History of Alberta* is an essential text for any reader interested in the cultural history of western Canada and a landmark achievement in Alberta's continuing literary history.

Canadian Books in Print. Author and Title Index, 1975 **The Mounted Police and Prairie Society, 1873-1919**
University of Regina. Canadian Plains Research Center, 1998 This collection of essays presents a variety of scholarly explorations of the nature and role of the Mounties in the Prairie Provinces from the formation of the North West Mounted Police in 1873-74 to its transformation into the Royal Canadian Mounted Police in 1919-20. The essays are grouped into five broad themes: relations with First Nations, law enforcement, social issues including relations with minority groups and labour movements, characteristics of the police force and crisis and change, police-immigrant relations, response to labour unrest and the origins of domestic intelligence and counter-subversion. An epilogue presents the case for the dramatic change of the force after 1919-20 and the new force's use of the positive image created by the old force. A Brief Political and Geographic History of North America (Where Are New France, New Netherland, and New Sweden?) Lissa

Johnston, 2010-12-23 When we think of North American colonies, images of Pilgrims and Thanksgiving come to mind. Would you be surprised to learn there were other colonies long before those famous thirteen? Before anyone landed on the shores of Plymouth Bay, the colony of New France was alive and well. It stretched from the Atlantic Ocean north of Maine west to the Great Lakes and later south to the Gulf of Mexico. The French had come seeking a western route to Asia. New York City is famous as a worldwide center of trade. Its businesslike roots reach back to 1624 when the governor of a Dutch colony bought Manhattan Island from local Indians. The Dutch built a trading post there called New Amsterdam. It was the headquarters of the New Netherland colony. The log cabin is the symbol of frontier life. Hardy pioneers built these homes across the American west. But if not for the colonists of New Sweden, the log cabin may never have existed in North America. Check inside for more details on North America's little-known colonies, their lasting contributions, and why their names have changed through time.

The Mounties Elle Andra-Warner, 2011-02-01 Since 1873 the Mounties have brought the law to the furthest reaches of the Canadian frontier. Sam Steele, the Lion of the North, was involved in almost every significant event in the Canadian West.

James Macleod and James Walsh negotiated peace with the First Nations peoples Less famous unsung heroes risked their lives enforcing justice in the Canadian wilds From stopping the whisky trade to policing the chaotic gold rush and patrolling the lonely North these true tales of the early days of the Force are sure to amaze and entertain **Canadian Books in Print** ,2003

told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in National Dreams are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop
