Policing And The Condition Of England Memory Politics And Culture:

Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing *The Oxford Handbook of Police and Policing* Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood

Crime Control and Everyday Life in the Victorian City

David Churchill, 2017 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending The formation of the new professional police forces in the nineteenth century is central to this narrative henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice With unique

conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society

Handbook of Policing Tim Newburn,2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves

Criminal Justice and Political Cultures Tim Newburn,Richard Sparks,2012-12-06 As crime increasingly crosses national boundaries and international co operation takes firmer shape so the development of ideas and policy on the control of crime has become an increasingly international and transnational affair These developments call attention not just to the many points of convergence in the languages and practices of crime control but also to their persistent differences This book is concerned both with the very specific issue of policy transfer within the crime control arena and with the issues raised by a more broadly conceptualized idea of comparative policy analysis The contributions in the book examine the different ways in which ostensibly similar vocabularies policies and practices are taken up and applied in the distinct settings they encounter

Challenges in Mental Health and Policing Ian Cummins,2022-07-26 Police officers deal with mental illness related incidents on an almost daily basis Ian Cummins explores how factors such as deinstitutionalisation community care failings and more recently welfare retrenchment policies have led to this situation He then considers how police officers should be supported by community mental health agencies to make confident and correct decisions and to ensure that the individuals they encounter receive support from the most appropriate services Of interest to police researchers and students of criminology and the social sciences the book examines police officers views on mental health work and includes a chapter by a service user

Democratic Policing in a Changing World Peter K. Manning,2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies

The SAGE Handbook of Global Policing Ben Bradford,Beatrice Jauregui,Ian Loader,Jonny Steinberg,2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of

policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today's globalized world. The volume is structured in the following four parts: Part One Lenses, Part Two Social and Political Order, Part Three Legacies, Part Four Problems and Problematics. By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters, the Handbook will be an essential tool for anyone in the field. Media Representations of Police and Crime M.

Colbran, 2014-10-20. This unique book explores the social processes which shape fictional representations of police and crime in television dramas. Exploring ten leading British and European police dramas from the last twenty-five years, Colbran, a former scriptwriter, presents a revealing insight into police dramas informed by media and criminological theory. Police in Africa Jan Beek, Mirco Göpfert, Olly Owen, Johnny Steinberg, 2017-08-15. Often overlooked by journalists and scholars, the police forces of the African continents are a significant and little-studied phenomenon. This book seeks to redress that lacuna. The studies span the continent from South Africa to Sierra Leone, keeping a strong ethnographic focus on police officers and their work. **Police Powers and Citizens' Rights** Layla Skinns, 2019-01-31. Police detention is the place where suspects are taken whilst their case is investigated and a case disposal decision is reached. It is also a largely hidden but vital part of police work and an under-explored aspect of police studies. This book provides a much-needed comparative perspective on police detention. It examines variations in the relationship between police powers and citizens' rights inside police detention in cities in four jurisdictions: Australia, England, Ireland, and the US, exploring in particular the relative influence of discretion, the law, and other rule structures on police practices, as well as seeking to explain why these variations arise and what they reveal about state-citizen relations in neoliberal democracies. This book draws on data collected in a multi-method study in five cities in Australia, England, Ireland, and the US. This entailed 480 hours of observation as well as 71 semi-structured interviews with police officers and detainees. Aside from filling in the gaps in the existing research, this book makes a significant contribution to debates about the links between police practices and neoliberalism. In particular, it examines the police, not just the prison, as a site of neoliberal governance. By combining the empirical with the theoretical, the main themes of the book are likely to be of utmost importance to contemporary discussions about police work in increasingly unequal societies. As a result, it will also have a wide appeal to scholars and students, particularly in criminology and criminal justice. Ethnography and the Evocative World of Policing Matthew Bacon, Bethan Loftus, Mike Rowe, 2023-12-04. This book demonstrates the unique contribution police ethnographies make to our understanding of policing cultures and practices in a variety of international settings. It features contemporary examples of police ethnographies that demonstrate the continuing value of ethnographic work to our understanding of policing. The first section of the book focuses on the police and Anglo-American policing. The second section is international in scope and seeks to enrich our understandings of policing beyond the police. Chapters explore police interactions during a stop and search and at a carnival. They peer behind the scenes at the

control room and at the use of intelligence We listen in to the experiences of new recruits and the stories told in canteens They also take us into the world of private security agencies to Kenya and to Vietnam The book explores the position of ethnographers asking whether we do too much with rather than on the police and whether our work reveals more about us as academics than them as officers Together they are revealing of a changing policing landscape Ethnography and the Evocative World of Policing demonstrates the unique value of ethnographic work in the fields of policing studies and criminology It will be a key resource for scholars and researchers of policing criminology sociology law and research methods The chapters in this book were originally published in two special issues of Policing and Society **The Policing**

Web Jean-Paul Brodeur, 2010-09-30 Nearly all research devoted to policing focuses on public uniformed police and their legal use of force An overwhelming amount of this work draws on evidence from Anglo American police forces These twin emphases have led to a limited view Agencies such as criminal investigation units intelligence services private security companies and military policing organizations have almost entirely escaped scholarly attention In The Policing Web Jean Paul Brodeur looks at policing as a whole He illuminates its full diversity showing how it extends far beyond the confines of public police working in uniform and visible to all Brodeur considers military policing both when it complements the values of democracy and when it does not He also discusses criminal individuals acting as police informants and criminal organizations enforcing their own rules in urban zones deserted by the police Brodeur argues that the diverse strands of the policing web are united by a common definition that emphasizes the license granted to policing agencies legally or with impunity to use means otherwise forbidden to the rest of the population Employing an international and comparative approach Brodeur establishes a comprehensive model that links all the components of policing The policing web however is not a neat and well integrated structure There is not just one policing web There are several depending on the country police history and culture and the various public images of policing These often overlooked factors are essential components of the context of policing Wide ranging and authoritative The Policing Web expands the very idea of what policing is and how it works and presents a novel yet fundamental understanding of law enforcement **Dictionary of Policing** Tim Newburn, Peter

Neyroud, 2013-06-17 Contemporary policing is developing rapidly and is becoming increasingly professionalized For practitioners National Occupational Standards Skills for Justice and the the new PDLP Police Development and Learning Programme have brought a new emphasis on skills standards and knowledge Training for police officers and civilian staff working in policing is being significantly upgraded At the same time it has become more rigorous with universities and other higher educational institutions playing an increasingly important part in police training as well as expanding the range of policing courses for undergraduate and postgraduate students Key features approximately 300 entries of between 500 and 1500 words on key terms and concepts arranged alphabetically designed to meet the needs of both students and practitioners entries include summary definition main text and key texts and sources takes full account of emerging

occupational and Skills for Justice criteria edited by the UK's leading academic expert on policing and the Chief Executive of the National Policing Improvement Agency Entries contributed by leading academic and practitioners in policing

Police Community Support Officers Megan O'Neill, 2019-04-25 Police Community Support Officers Cultures and Identities within Pluralised Policing presents the first in depth ethnographic study of Police Community Support Officers PCSOs since the creation of the role in 2002 Situated within the tradition of police ethnographies this text examines the working worlds of uniformed patrol support staff in two English police forces Based on over 350 hours of direct observation and 33 interviews with PCSOs and police constables in both urban and rural contexts Police Community Support Officers offers a detailed analysis of the operational and cultural realities of pluralised policing from within Using a dramaturgic framework the author finds that PCSOs have been undermined by their own organisations from the beginning which has left a lasting legacy in terms of their relationships and interactions with police officer colleagues The implications of this for police cultures community policing approaches and the success of pluralisation are examined The author argues that while PCSOs can have similar occupational experiences to constables their particular circumstances have led to a unique occupational culture one which has implications for existing police culture theories The book considers these findings in light of budget reductions and police reforms occurring across the sector processes in which PCSOs are particularly vulnerable

Policing in an Age of Austerity Michael Brogden, Graham Ellison, 2013 In the current context of financial retrenchment on public sector budgets public policing in England and Wales today faces the prospect of dramatic change While the question of role and function has been the bedrock of classical sociological theorizing on police this book grounds such theorising in explicating how British policing has arisen through a schismatic process why it is in a present mess and what it should be doing in the future The central themes of this critical text are An analysis of the congeries of roles and functions that our public police in England and Wales currently undertake and how they got there An examination of the effect of arbitrary reduction in police services including a reading of policing politics in an age of austerity A comparative critique of the British Brand of Policing The development of a normative manifesto for the future of British Policing This book will be essential for reading for students researchers and academics alike in criminology police studies and public and social policy

Sentiment, Reason, and Law Jeffrey T. Martin, 2019-10-15 What if the job of police was to cultivate the political will of a community to live with itself rather than enforce law keep order or fight crime In *Sentiment Reason and Law* Jeffrey T Martin describes a world where that is the case The Republic of China on Taiwan spent nearly four decades as a single party state under dictatorial rule 1949-1987 before transitioning to liberal democracy Here Martin describes the social life of a neighborhood police station during the first rotation in executive power following the democratic transition He shows an apparent paradox of how a strong democratic order was built on a foundation of weak police powers and demonstrates how that was made possible by the continuity of an illiberal idea of policing His conclusion from this paradox is that the purpose of the police was to cultivate

the political will of the community rather than enforce laws and keep order As Sentiment Reason and Law shows the police force in Taiwan exists as an anthropological fact bringing an order of reality that is always simultaneously and inseparably meaningful and material Martin unveils the power of this fact demonstrating how the politics of sentiment that took shape under autocratic rule continued to operate in everyday policing in the early phase of the democratic transformation even as a more democratic mode of public reason and the ultimate power of legal right were becoming more significant Fighting Crime Together Jenny Fleming, Jennifer Wood, Jennifer Dawn Wood, 2006 Whether they want to or not police are increasingly having to work with and through many local national and international partnerships This edited collection explores the development of policing and security networks It looks at ways in which police can develop new strategies for integrating the knowledge capacities and resources of different security providers and assesses the challenges associated with such a venture **Policing Drugs** Steven Debbaut, 2025-05-08 Exploring the complex interplay between drug law enforcement and self legitimacy among police officers this book through ten months of ethnographic research in Belgian cities examines how drug detectives justify their role within a challenging landscape of moral social and legal dilemmas Chapters cover key theoretical frameworks including self legitimacy moral philosophy and policing culture alongside detailed interviews and field observations Readers gain insight into the motivations and ethical conflicts that shape policing practices revealing how officers navigate societal expectations the symbolic war on drugs and their own sense of moral duty Its insights into the eradication versus sanitarian drug discourse provide valuable perspectives on how enforcement strategies are informed by underlying social and cultural beliefs By analysing how detectives confront the limits of punitive approaches this study encourages a re evaluation of current drug policies and their effectiveness offering a nuanced view of the realities of drug policing in contemporary society Policing Drugs Legitimacy Practice and the Self Legitimacy of Drug Detectives is ideal for scholars policymakers and law enforcement professionals interested in criminal justice drug policy and police ethics

Addressing Corruption in The Police Service Brendan Brookshaw, 2024-11-12 This book offers an autoethnographic examination of the author's last three years as a serving police officer and as Head of the Professional Standards Department recorded in personal journals It analyses the emotional and philosophical impact arising from day to day interactions with police officers and reflects on corruption and how it is perceived both inside and outside the service This book posits a model of the kakistocratic police milieu as a theoretical framework for analysis of the police in contemporary neoliberal liquid modernity which could be used to explore other police phenomenological research data This autoethnographic insider research provides a rare addition to the knowledge on police corruption It speaks in particular to those doing professional policing degrees and police practitioners
