Policing Britain Risk Security And Governance:

Policing Britain Les Johnston, 2000 CONTENTS Security Officers and Policing Mark Button, 2016-04-01 This volume examines how and to what extent security officers make use of legal tools The work identifies these tools and draws on two case study sites to illustrate how security officers make use of them as well as how they fit in broader security systems to secure compliance The study also examines the occupational culture of security officers and links them into the broader systems of security that operate to police nodes of governance The book provides insights for researchers and policy makers seeking to develop policy for the expanding private security industry **The New Policing** Eugene McLaughlin, 2007 The New Policing provides a comprehensive introduction to the critical issues confronting policing today It incorporates an overview of traditional approaches to the study of the police with a discussion of current perspectives The book goes on to examine key themes including the core purpose of contemporary policework the reconfiguration of police culture organizational issues and dilemmas currently confronting the police the managerial reforms and professional innovations that have been implemented in recent years and the future of policing security and crime control In offering this discussion of the nature and role of the police The New Policing illustrates the need to re examine and re think the theoretical perspectives that have constituted policing studies Examining evidence from the UK the USA and other western societies the book promotes and enables an understanding of the cultural and symbolic significance of policing in society **Policing and the Condition of England** Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing Global Environment of Policing Darren Palmer, Michael M. Berlin, Dilip K. Das, 2012-06-05 Police organizations across the globe are experiencing major changes Many nations cope with

funding constraints as pressures within their societies terrorism and transnational crime and social and political transformations necessitate a more democratic form of policing Drawn from the proceedings at the International Police Executive Symposium i

Private Policing Mark Button, 2019-04-24 The second edition of Private Policing details the substantial involvement of private agents and organisations involved in policing beyond the public police It develops a taxonomy of policing and explores in depth each of the main categories examining the degree of privateness amongst several other issues The main categories include the public police hybrid policing such as state policing bodies specialised police forces and non governmental organisations voluntary policing and the private security industry This book explores how the public police and many other state bodies have significant degrees of privateness from outright privatisation through to the serving of private interests The book provides a theoretical framework for private policing building upon the growing base of scholarship in this area Fully revised this new edition not only brings the old edition up to date with the substantial scholarship since 2002 but also provides more international context and several new chapters on corporate security management security officers and private investigation There is also a consideration of what the book calls the new private security industry working largely in cyber space Bringing together research from a wide range of projects the author has been involved with along with the growing body of private policing scholarship the book shows the substantial involvement of non public police bodies in policing and highlights a wide range of issues for debate and further research Private Policing is ideal reading for students of policing and security courses academics with an interest in private policing and security and practitioners from security and policing

a detailed examination of current practices in key frontline agencies The result is an essential text for criminology students and trainee professionals in criminal justice *Towards Safe City Centres?* Gesa Helms, 2016-02-24 Examining the rising interest in quality of life offences anti social behaviour and incivilities in urban public spaces this study explores the rising importance of policing crime control and community safety policies in the context of the ongoing urban restructuring in old industrial cities This is achieved through an extensive exploration into the making and remaking of urban spaces in the city of Glasgow In so doing this book puts forward a strong and innovative theoretical argument Framed in a critical Marxist perspective that draws on debates within German speaking critical theory and Marxism this study argues for the centrality of human social praxis in our understanding of contemporary cities It engages with questions over the production of social space a fragmented social totality and human agency which so far have only received limited attention in Anglo American debates **The Oxford Handbook of Police and Policing** Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood

Transformations of Policing Alistair Henry, 2017-05-15 Police and People in London is still the largest and most detailed study of a police force and its relations with the public that has yet been undertaken in Britain The twenty three years since its publication has seen a constantly accelerating rate of change in the legal framework of policing in the arrangements for democratic accountability of the police in the technologies involved in crime and policing in management structures and methods in the police service in financial control systems imposed by

central government and in methods of assessing police performance Over the same period crime control has moved from the bottom to the top of the political agenda leading to increasing pressure on the police to be seen to be effective

Transformations of Policing returns to the central issues discussed in 1983 and considers whether the main conclusions need to be revised in the light of what has happened since It also reviews areas of debate and research that have emerged more recently and highlights areas of turbulence that are creating fundamentally different patterns from before and raising genuinely new questions

Crime and Security Lucia Zedner, 2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society
