Mental Health Public Policy in Global Context Timothy Philip Fadgen, 2020-09-16 This book explores the development of mental health systems in the Pacific Island Countries PICs of Samoa and Tonga through an examination of several policy transfer events from the colonial to the contemporary Beginning in the 1990s mental health became an area of global policy concern as reflected in concerted international organisation and bilateral aid and development agendas most notably those of the World Bank World Health Organization and the governments of Australia and New Zealand This book highlights how Tonga and Samoa both reformed their respective mental health systems during these years after relatively long periods of stagnation Using recent scholarship concerning public policy transfer this book explains these policy outcomes and expands it to include consideration of the historical institutional dimensions evidenced by contemporary mental health systems This book considers three distinct levels of policy implicated in mental health system transfer processes from developed to developing nations colonial authority and influence decolonisation processes and the global development agenda surrounding health systems In the process the author argues that there are in fact three levels of policy change that must be accounted for in examining contemporary policy change These policy levels include formal policy transfers which tend to be prescriptive involving professional problem construction and the designation of appropriate state apparatus for curative or custodial care provision quasi formal transfers which tend to be aspirational and involve policy instruments developed through collaborative

participatory processes and informal transfers that tend to be normative and include practices by professional actors in delivering service merged with traditional cultural beliefs as to disease aetiology as well as reflecting a deep understanding of the cultural context within which the services will be delivered This book argues that a renewed focus on the importance of public policy and government institutional capacity is necessary to ensure human rights and justice are secured **EU Policies in a Global Perspective** Gerda Falkner, Patrick Müller, 2013-11-20 Recent decades have seen a rise in the significance of governance layers beyond the nation state and even Europe Nonetheless few efforts have been made thus far to systematically examine the EU's interaction with global policy regimes This book maps the relative importance of EU policies in the multi level global governance system in comparison with national and global activities It provides a unique comparative analysis of the EU's capacity for projecting its policies outward Focusing on trade policy agriculture food safety competition social rights environmental policy transport migration nuclear non proliferation or financial regulation each chapter contributes to a better understanding of the EU's role in shaping global policies the mechanisms it uses and the conditions leading to success or failure The contributors comparative research highlights that policy export is a demanding phenomenon that faces severe limitations and frequently comes with drawbacks Still EU policy export played a key role in shaping the rules of the global trade regime and influenced global policy outcomes at least to a minor extent or in technical aspects in the majority of the covered policy areas Overall however this book reveals that the EU not only aims to export its policies but interacts with its global environment in a number of distinct ways including policy import and policy protection to shield it from global pressures Concluding with a comparison of all policies on the meta level and relevant policy recommendations this book will be of interest to students scholars and practitioners of European politics European public policy global governance and international relations **Governance, Policy and Juxtaposition** Michael Roe, 2019-10-01 This book considers governance and policy making within the maritime sector and focuses significantly on the dimensional context within which governance works Recognising the importance of understanding governance and policy at times when the world is faced with social political and economic problems it highlights the fact that both areas are equally significant in understanding today's political economy By focusing on the maritime sector a pillar industry supporting international trade activities the book offers a unique perspective to explain the difficulties of balancing policy making with governance in order to provide solutions It also examines the importance of developing a governance process that encourages and accommodates juxtaposition in a way that ensures that the effect of independent policy making is understood upon the success or otherwise of policies across a range of contexts and problems Given the in depth nature of the text it is of interest to academics researchers and professionals in the field Emerging Practices in Intergovernmental Functional Assignment Gabriele Ferrazzi, Rainer Rohdewohld, 2017-06-26 Attaining the benefits of especially fiscal decentralization in government remains an enduring challenge in part because the re arrangement of public functions across levels of government has often been

carried out poorly This book aims to provide a firmer conceptual basis for the re arrangement of public functions across levels of government In doing so it offers practical advice for policy makers from developing and emerging countries and development cooperation practitioners engaged in such activity Combining a theoretical approach for inter governmental functional assignment with an in depth analysis of real life country cases where functional assignment FA has been supported in the context of international development cooperation it underscores the common technical and political challenges of FA and also demonstrates the need to expect and support country made and context specific solutions to FA processes and results Examples are drawn from a number of developing transition countries from the Asia Pacific region Africa and the OECD which outline and suggest advisory approaches tools principles and good practices and approaches This text will be of key interest to scholars students policy makers and practitioners in public policy decentralization local governance studies public administration and development administration studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Organizational Learning in the Global Context Michael Kenney, 2017-03-02 Organizational learning is an area of study that focuses on models and theories about the way an organization learns and adapts This volume investigates how various global and regional intergovernmental organizations states and national bureaucracies as well as nongovernmental organizations exploit experience and knowledge to change their understanding of the world their policies and their behaviours Drawing upon and synthesizing organizational social and individual level learning theories the cases explicate various learning processes learning by illicit actors and deterrents to organizational learning The twelve case studies of this volume consider

organizational learning associated with multiple issue areas including the United States embargo against Cuba food security in the European Union the Russian energy sector Colombian drug trafficking terrorist groups the Catholic Church and foreign aid agencies Based entirely on original research the volume is relevant to international relations comparative politics organizational sociology and policy studies Envisioning Media Power Brett Christophers,2009-04-16 Envisioning Media Power develops an original geographical perspective on the nature and exercise of power in the international television economy It uses theories of political economy as the basis for a comparative empirical examination of the UK and New Zealand television markets while closely considering these markets respective relationships with the US market and its globally influential media corporations In fleshing out this geographical perspective the book critically addresses the power to produce reproduce and extract profit from territorialized media markets To understand such powers the book examines processes of creation and dissemination of industry knowledge structures of industry governance and the locational characteristics of television s operational economy Through its rigorous and creative combination of conceptual insights with empirical substance Envisioning Media Power both illuminates the fabric of television s international space economy and ultimately offers a unique theoretic argument suggesting that power knowledge and geography are inseparable not only from one another but from the process of accumulation of media capital **Cross-border Interactions and Encounters**

between Germany and Korea Yonson Ahn,Jihye Kim,2023-10-15 Cross Border Interactions and Encounters between Germany and Korea undertakes an interdisciplinary comprehensive exploration of the multifaceted dimensions of Korea and Germany s relationships Offering fresh perspectives and insights into the development and transformations of these cross border interactions this book comes as a welcome examination of a relatively underrepresented research area Theory and Methods in Comparative Policy Analysis Studies Iris Geva-May,B. Guy Peters,Joselyn Muhleisen,2020-06-09 Volume One of the Classics of Comparative Policy Analysis Theory and Methods in Comparative Policy Analysis Studies includes chapters that apply or further theory and methodology in the comparative study of public policy in general and policy analysis in particular Throughout the volume the chapters engage in theory building by assessing the relevance of theoretical approaches drawn from the social sciences as well as some which are distinctive to policy analysis Other chapters focus on various comparative approaches based on developments and challenges in the methodology of policy analysis Together this collection provides a comprehensive scholastic foundation to comparative policy analysis and comparative policy studies Theory and Methods in Comparative Policy Analysis Studies will be of great interest to scholars and learners of public policy and social sciences as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches The chapters were originally published as articles in the Journal of Comparative Policy Analysis which in the last two decades has pioneered the development of comparative public policy The volume is part of a four volume series the Classics of Comparative Policy Analysis including Theories and Methods Institutions and Governance

Regional Comparisons and Policy Sectors Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy political science public administration governance and policy design authored by the JCPA co editors Giliberto Capano Iris Geva May Michael Howlett Leslie A Pal and B Guy Peters Creative Economies, Creative Cities Lily Kong, Justin O'Connor, 2009-05-19 Justin O Connor and Lily Kong The cultural and creative industries have become increasingly prominent in many policy agendas in recent years Not only have governments identified the growing consumer potential for cultural creative industry products in the home market they have also seen the creative industry agenda as central to the growth of external markets This agenda stresses creativity innovation small business growth and access to global markets all central to a wider agenda of moving from cheap manufacture towards high value added products and services The increasing importance of cultural and creative industries in national and city policy agendas is evident in Hong Kong Singapore Taiwan South Korea Beijing Shanghai and Guangzhou Australia and New Zealand and in more nascent ways in cities such as Chongqing and Wuhan Much of the thinking in these cities countries has derived from the European and North American policy landscape Policy debate in Europe and North America has been marked by ambiguities and tensions around the connections between cultural and economic policy which the creative industry agenda posits These become more marked because the key drivers of the creative economy are the larger metropolitan areas so that cultural and economic policy also then intersect with urban planning policy and governance

NGOs, IGOs, and the Network Mechanisms of Post-Conflict Global Governance in Microfinance A. Ohanyan, 2008-10-27 Post conflict reconstruction stretches the capacities of international institutions and they turn to NGOs to answer the challenge This book explores how the interactions between international public institutions and NGOs have affected peacebuilding in the post conflict situations of Bosnia Afghanistan and Kosovo Institutional Reform in Central Asia Joachim Ahrens, Herman Willem Hoen, 2013 The countries of Central Asia are increasingly the focus of intense international attention due to their geopolitical and economic importance as well as their unsettled transition processes The region faced enormous challenges when the Soviet Union disintegrated and this book focuses on the reforms of the institutional environment that have been largely neglected Through an interdisciplinary approach the book explores key aspects of institution building as well as economic and political governance in Central Asia Contributors from a variety of disciplines such as economics political economy political science sociology law and ethnology investigate the challenges of institutional transition in a non democratic region The book discusses how the lack of effective institution building as well as rule enforcement in the economic and political realms represents one of the key weaknesses and drawbacks of transition and goes on to look at how crafting market institutions will be of utmost importance in the years ahead Making an important contribution to understanding of political economic developments in Central Asia this book is of interest to students and scholars of political economy comparative economics development studies and Central Asian studies
